परीक्षा नियंत्रक

National Skill Development Corporation (NSDC), under the aegis of Ministry of Skill Development and Entrepreneurship, conducts **IndiaSkills Competition**, the country's biggest skill competition. The competition is designed to demonstrate the highest standards of skilling and offers a platform to young people to showcase their talent at national and international levels.

With several inherent benefits of skill competitions, a structured approach with active participation of States has been envisaged under the IndiaSkills State, Pre-national and National Skills competition – IndiaSkills competition program.

The participants of IndiaSkills Nationals emerge from winners of district/state and subsequently pre-national level competitions. The winners of national competition, through a process of selection, represent India at WorldSkills and other international competitions.

Objectives of IndiaSkills competition are outlined as under:

- I. Promulgate skills in society to motivate the youth to pursue vocational education.
- II. Champion skills and learning for work through local, regional, national and international skills competitions.
- III. Create partnership network comprising governments, industry, academic partners, Vocational Education and Training (VET) institutions, trade associations and youth to promote skills.
- IV. Facilitate cooperation among governments, industry and academia.
- V. Help the Indian youth attain world-class standards of competence, excellence and productivity.

The winners of IndiaSkills 2021 underwent intensive training for 9 months and 56 final competitors in 50 skills represented India at WorldSkills Competition 2022. India secured its best ranking of 11 at WorldSkills Competition 2022 by winning 2 Silver medals, 3 Bronze medals and 13 Medallion for Excellences.

On 17th October 2023, Shri Dharmendra Pradhan, Honorable Minister of Education, Skill Development and Entrepreneurship launched the “IndiaSkills Competition 2023-24” and registrations are open on Skill India Digital (<https://www.skillindiadigital.gov.in/home>).

Last date of registration is 7th January 2024.

To maximize participation and identify the youth with the right skills & knowledge, we would like to conduct a series of orientation workshops.

Your kind support is requested in this regard.

1. Introduction

Skill India platform is envisioned to provide skilling, upskilling, and multi-skilling opportunities and ensure access to lifelong learning to citizens through classroom, online and blended learning. It aims to bring together academic; industry demands and linkages; improve employment prospects and enable the start-up ecosystem. The integrates the existing government databases in education, skilling, entrepreneurship and jobs and acts as a one-stop solution for the learners pursuing education and skilling.

Skill India Digital Platform is developed by National Skill Development Corporation (NSDC). NSDC was set up by the Ministry of Finance as a Public Private Partnership (PPP) model. The Government of India, through the Ministry of Skill Development & Entrepreneurship (MSDE), holds 49% of the share capital of NSDC, while the private sector has a balance 51% of the share capital.

NSDC aims to promote skill development by catalyzing the creation of large, quality, and for-profit vocational institutions. Further, the organization provides funding to build scalable and profitable vocational training initiatives. Its mandate is also to enable a support system which focuses on quality assurance, information systems and training the trainer academies either directly or through partnerships. NSDC acts as a catalyst in skill development by providing funding to enterprises, companies and organizations that provide skill training.

2. Formatting Standards

This document attempts to provide step-by-step instructions for every key action in SID. Each instruction is accompanied by a brief text write-up and a screenshot. For greater clarity, all text instructions and screenshots follow standardized formatting. These standards are briefly described in this section.

1. Formatting for Text Instructions

[Messages in Blue and Underlined](#): These are hyperlinks. Press the Ctrl button and click on these messages to go to the referred section of the document

2. Formatting for Screenshots

The page screenshots use standard visual markers to indicate actions:

3. **Arrow**- Indicates the area where the user needs to look into
4. **Square**- Indicates the area where the user needs to click

3. System Requirements

You can access Skill India from Android and iOS mobile devices. Our system requirements for these follow below:

i. Minimum system requirements

- Browser: The latest Chrome, Firefox, Safari, Edge, or Opera for desktop/laptop
- A broadband/mobile internet connection with good speed

ii. Mobile specific requirements

- iOS 14.0 and above
- Android 8.0 and above

The Skill India app is available on iOS and Android devices.

4. How to install Skill India Digital app?

These are the steps to visit Skill India Digital:-

- a. In order to install the application, please open the playstore or the appstore in your device

- b. Search for the Skill India Digital
- c. Select the application with the name Skill India Digital (SID) with the icon as shown
- d. Install the application on your device
- e. Open the application from your app drawer
