Dr. Abdul Kalam Sports Fest, 2026-27

Events - Rules & Regulations

1. RULES OF ATHLETICS (Maximum No. of Participants from an Institute: 10M, 10F)

RACE: 100m, 200m, 400m, 800m

- In all races up to and including 400m, each athlete shall have a separate lane, with a width of $1.22\text{m} \pm 0.01\text{m}$, including the lane line on the right, marked by white lines 50mm in width. All lanes shall be of the same nominal width.
- The start of a race shall be denoted by a white line 50mm wide. In all races not run in lanes, the start line shall be curved, so that all the athletes start the same distance from the finish. Starting positions in events at all distances shall be numbered from left to right, facing the direction of running.
- An athlete, after assuming a full and final starting position, shall not commence his/her start until after receiving the report of the gun. If, in the judgment of the Starter or Recalls, he does so any earlier, it shall be deemed a false start.

RELAY RACES 4X100m

- Each takeover zone shall be 20m long of which the scratch line is the centre. The zones shall start and finish at the edges of the zone lines nearest the start line in the running direction.
- The relay baton shall be a smooth hollow tube, circular in section, made of wood, metal or any other rigid material in one piece, the length of which shall be 0.28m to 0.30m.
- If dropped, the baton shall be recovered by the athlete who dropped it. He/she may leave his/her lane to retrieve it provided that, by doing so, he/she does not lessen the distance to be covered.
- Passing of the baton outside the takeover zone shall result in disqualification. Each member of a relay team may run one leg only.

LONG JUMP

- The minimum length of the runway, measured from the relevant take-off line shall be 40m and, where conditions permit, 45m. It shall have a width of $1.22\text{m} \pm 0.01\text{m}$ and shall be marked by white lines 50mm in width.
- The take-off shall be marked by a board sunk level with the runway and the surface of the landing area. The edge of the board which is nearer to the landing area shall be the take-off line.
- The landing area shall have a minimum width of 2.75m and a maximum width of 3m. The landing area should be filled with soft damp sand, the top surface of which shall be level with take-off board.
- All jumps shall be measured from the nearest break in the landing area made by any part of the body, or anything that was attached to the body at the time it made a mark, to the take-off line, or the measurement shall be taken perpendicular to the take-off line or its extension.

An athlete fails if:

- (a) he/she while taking off, touches the ground beyond the take-off line with any part of his/her body, whether running up without jumping or in the act of jumping; or
- (b) he/she takes off from outside either end of the board, whether beyond or before the extension of the take-off line.

SHOTPUT

The shot shall be put from the shoulder with one hand only. At the time an athlete takes a stance in the circle to commence a put, the shot shall touch or be in close proximity to the neck or the chin and the hand shall not be dropped below this position during the action of putting. The shot shall not be taken behind the line of the shoulders.

JAVELIN

The minimum length of the runway shall be 30m. It shall be marked by two parallel white lines 50mm wide and 4m apart. The throw shall be made from behind an arc of a circle drawn with a radius of 8m and must fall in the given zone only.

HIGH JUMP

- An athlete fails if:
 - After the jump, the bar does not remain on the supports because of the action of the athlete whilst jumping; or
 - He/she touches the ground including the landing area beyond the vertical plane through the nearer edge of the crossbar, either between or outside the uprights with any part of his body, without first clearing the bar. However, if when he jumps, an
- Athlete touches the landing area with his foot and in the opinion of the Judge, no advantage is gained, the jump for that reason should not be considered a failure.
- He/she touches the crossbar or the vertical section of the uprights when running up without jumping.

RULES OF DISCUS THROW

Rules Regarding Cage

- The construction and the strength of the cage should be such that it can arrest a disc of around 2Kg coming at a speed of 25m/sec.
- The cage should have at least one side open. Therefore, it is often recommended to construct it in a “U” shape.

Here are some important rules regarding throw

- The discus can only be thrown by an athlete when he or she will stand inside a circle which has a diameter of 2.5m.
- During the course of throw, the athletes are prohibited from touching the top of the rim. However, they can touch the inner part of the rim.
- An athlete cannot touch the ground beyond the circle.
- If the athlete leaves the circle before the landing of the disc on the ground, then it will be considered as a foul throw.
- Each athlete would be given 03 chances to showcase their talent.
- There is particular boundary of landing of the disc as shown in the figure. If the disc lands outside that zone, then that throw is considered invalid.

2. RULES OF BADMINTON

- It will be a team event. Each team will consist of 4 players.
- A game can take place with either two (singles) or four (doubles) players.
- An official match has to be played indoors on the proper court dimensions. The dimensions are 6.1m by 13.4m. The net is situated through the middle of the court and is set at 1.55m.
- To score a point the shuttlecock must hit within the parameters of the opponent's court.
- If the shuttlecock hits the net or lands out then a point is awarded to your opponent.
- Players must serve diagonally across the net to their opponent. As points are won then serving stations move from one side to the other. There are no second serves so if your first serve goes out then your opponent wins the point.
- A serve must be hit underarm and below the server's waist. No over-arm serves are allowed.
- Each game will start with a toss to determine which player will serve first and which side of the court the opponent would like to start from.
- Once the shuttlecock is 'live' then a player may move around the court as they wish. They are permitted to hit the shuttlecock from out of the playing area.
- If a player touches the net with any part of their body or racket then it is deemed a fault and their opponent receives the point.
- A fault is also called if a player deliberately distracts their opponent, the shuttlecock is caught in the racket then flung, the shuttlecock is hit twice or if the player continues to infract with the laws of badminton.
- Each game is umpired by a referee on a high chair who overlooks the game. There are also line judges who monitor if the shuttlecock lands in or not. The referee has overriding calls on infringements and faults.
- Let may be called by the referee if an unforeseen or accidental circumstance arose. These may include the shuttlecock getting stuck in the bet, server serving out of turn, one player was not ready or a decision which is too close to call.
- The game has only two rest periods coming the form of a 90 second rest after the first game and a 5-minute rest period after the second game.
- If the laws are continuously broken by a player, then the referee holds the power to dock that player of points with persisting fouls receiving a forfeit of the set or even the match.

3. RULES OF BASKETBALL

- Each team will consist of maximum 10 players.
- FIBA rules will apply.
- 10 mins each quarter with 2 min break between the quarters and 5 minutes at half time.
- Teams should report to the Basket Ball court half an hour before commencement of the match.
- All the players of the team should have same colour of jersey with printed numbers.
- No player should carry anything in his/her hand or neck (wrist watch, necklace, ring, kada, bracelet etc.).

4. RULES OF CHESS

- It will be a team event. Each team will consist of 1 player.
- All the rules of **FIDE (Federation Internationale des Echecs)**, World Chess Federation, will be followed in chess tournament.

5. RULES OF KABADDI

- Each team shall consist of no more than 10 players with only 7 taking to the field at any one time.
- The duration of the match is two halves of 20 minutes each with a half time break of 5 minutes.
- At the start of a Kabaddi match, there is a coin toss with the winner having the choice as to whether to have the first raid or not.
- To win a point when raiding, the raider must take a breath and run into the opposition's half and tag one or more members of the opposing team and then return to their own half of the pitch before inhaling again.
- To prove that another breath hasn't been taken, the rider must continue to repeatedly yell the word 'Kabaddi'. Failure to do this, even for just a moment means that the rider must return to their own side of the court without points and the opposite team is awarded a point for a successful defence play.
- The team being raided is defending, and the players must prevent the raiders from tagging them and returning back over the halfway line.
- Empty raids are the ones in which the raider returns to his court without earning any points. After two successive empty raids, the attacking teams have to make a "do-or-die" raid, where if they fail to score a point, the defending team earns a point.
- Raiders may only be grabbed by their limbs or torso, not by their hair, clothes or anywhere else, and defenders are not permitted to cross the centre line.
- Each team will take turns in raiding and defending. Following halftime, the two teams switch sides of the court and the team who defended first in the first half begin the second half by raiding.
- The game continues in this way until the time is up, the team with the most points at the end of the match is declared the winner.

6. RULES OF KHO-KHO

- Total number of participants is 12 (including 3 Substitutes).
- Timings: 14 minutes (7 for Chasing and 7 for Running) for each team
- The organizer can modify the timings as per convenience. Rules of KKFI will be applied.

7. RULES OF TABLE TENNIS (Ping Pong)

- It will be a team event. Each team will consist of 4 players.
- Ping pong is played over a pre-agreed number of games and the first to 11 points wins each game.
- The toss of a coin or another form of lot-drawing determines which of the players shall serve first.
- Each table tennis player serves twice in turn and serves must be made from an open palm, the ball tossed six inches then struck so it bounces on the service side, clears the net, then bounces on the receiver's side.
- Points are decided as described above and games must be won by two clear points. At 10-10 each player serves once only, in turn, until one player established a two-point lead and wins the game.
- After each game the players rotate both the end of the table from which they are playing as well as who serves and receives the ball first.
- In the deciding game of a match the players swap ends after either player reaches five points.

8. RULES OF VOLLEYBALL

- Each team will consist of 10 players, including 4 substitutes. Players can be substituted at any time but if they are to return can only be swapped for the player that replaced them.
- Each team can hit the ball up to three times before the ball must be returned. The defensive team can then try and block or return the ball again hitting it a maximum of three times.
- Games are played up to 25 points and must be won by 2 clear points.
- Violations will be called for the following:
 - Stepping over the base line when serving the ball.
 - Ball hits the net and fails to get over the net (If the ball hits the net and still goes over the net then this is perfectly legal).
 - Players are not allowed to carry, palm or run with the ball.
 - Players must not touch the net with any part of the body. If the net is said to have hit them rather than vice-versa, then this is ok.
 - The ball cannot travel under the net.
 - Players cannot reach over the net and hit the ball.

Note: All events will be played following the international game rules.
