Activity Report

The Department of Computer Applications (DCA), in collaboration with the Institutions' Innovation Council (IIC) - Ministry of Education, organized a workshop on "Entrepreneurship Skill, Attitude, and Behavioural Development" on October 15, 2024.

Prof. (Dr.) Anuranjan Mishra, Dean (IIRP) at GNIOT Engineering Institute, led the session, emphasizing the importance of developing entrepreneurial skills and attitudes among DCA 1st and 2nd-year students. The workshop focused on guiding students in turning innovative ideas into successful ventures, highlighting the need for the right skill set, attitude, and behavior in entrepreneurship.

Students gained insights into how personal attitudes and behaviors impact entrepreneurial growth, along with practical skills like self-awareness and understanding others—crucial elements in the entrepreneurial journey. The session encouraged interaction through Q&A, allowing students to address their queries directly with the expert.

The event was coordinated by Dr. Abdul Alim and Ms. Shweta Singh, with special thanks to Dr. Dhiraj Gupta (Director, GNIOT), Dr. Sanjay Katiyar (Dean Academics), Dr. Neeraj Kumar Sharma (HOD, DCA), Mr. Harendra Singh (Dy-HOD, DCA), and all faculty members for their continuous support and motivation.
