## NOTICE

### GNIOT RESEARCH POLICY: PART (A) - INCENTIVES FOR RESEARCHERS

GNIOT pools renowned academicians, researchers, and intellectuals, thus, aims to contribute to the IP worth of the nation and be recognized as a pioneer research-based academic institute. In continuation of establishing Innovation Centre and other research promoting provisions, the Research Incentive Policy is incepted to further intensify research and innovation across GNIOT Institutions. This part of the Research Policy is designed to encourage faculty members and students for performing quality research work, publishing research papers in renowned journals, and other related activities.

## NOTICE

Regarding: Addendum to IPR clause of Research Policy vide no. GNIOT-GOI/DG/2020-21/655 at sequence number-6

This has been highlighted by the honorable Director during verbal discussions on assessing the quality of IPR/Patent works reported by faculty/staff members for acknowledging the efforts put in and rewarding the same. The committee recommends the following criteria for assessing the IPR/Patent works:

1. The amount of incentive as declared in the Research Awards policy is applicable for the whole invention and is expected to be distributed in order of contributions mentioned in IPR/patent work terms.
2. In case, IPR/patent works do not have a mention of proportion of contributions from each inventor, the format of research papers as declared in the above-mentioned policy will be applicable for determining the contribution from each inventor in order of their appearance in respective IPR/Patent work.
3. The incentive amount declared for IPR/Patent work in research policy is for **top quality work** in respective field as declared on [www.wipo.org](http://www.wipo.org). In a nutshell, as per existing scenario until further modification, the incentive amount is **100%** for U.S./Japanese/French/British patents, **75%** for German/Chinese /Korean/Swiss patents. For rest all countries, the maximum "**eligible amount**" is 50%.
4. The eligible amount as mentioned at serial number-3 will be further estimated for, a) incentive, and b) 80% processing fee to be borne **based on** the position of GNIOT inventor in the whole group of inventors.
5. The incentive claimed under Patent Grant Category will not be considered under Patent Publish Category.
6. The inventors have to abide and declare the terms and conditions of GNIOT profit claims of 40% for becoming eligible to apply for incentive apart from making GNIOT as Inventor (case by case).

This may please be studied thoroughly before proceeding to register your claims for incentives for IPR/patents.

Prof. (Dr.) Vaibhav Shrivastava

Additional Dean-R&D

## NOTICE

Regarding: Addendum to Book(s) and Book-Chapter (s) clause of Research Policy vide no. GNIOT-GOI/DG/2020-21/655 at sequence number-1

This notification is the outcome of the discussions between the members of a peer committee comprising management nominee, Director and a few experts regarding the quality of Books and Book Chapters recommended for students learning enrichment compared to extremely poor quality of notes those students usually refer to study just before examinations. GNIOT Research Policy already provides a necessary platform for creating an authentic piece of writing that can be made available for all learners. The committee realized the need of necessary elaboration on the spirit behind acknowledging the efforts put in for such a noble action of writing a book or a book chapter mentioned in the GNIOT Research Policy: The committee recommends the following criteria for assessing the quality of Book(s) and Book-Chapters(s) in addition to pre-declared standards of ISBN-13:

1. The claim for incentive must be accompanied by soft copy (pdf version) of the book chapters or books.
2. The acceptable similarity percentage can be maximum 20% for claim of the award.
3. The published work must cover the curriculum structure of more than 4 state/private universities atleast or the number of copies sold must exceed 1000 minimum as per royalty statement.

This may please be studied thoroughly before proceeding to register your claims for incentives against books and book-chapters.

Prof. (Dr.) Vaibhav Shrivastava

## NOTICE

**Regarding: Extension of pre-approved miscellaneous expenses to be covered as 'Imprest Money' for research activities like open access fee, booking travel tickets for research trips, local conveyance for approved research trips, printing research posters, workshop/FDP registration, any laboratory item upto worth Rs.1500/- etc.**

A meeting comprising honorable Director-General of the Group, Director –Engg Institute and a few Deans was convened today to discuss the availability of pre-approved funds those can be additionally used as 'Imprest Money' for covering miscellaneous expenses for research activities like high-impact (IF > 5) SCI/Scopus journal paper open access fee, booking travel tickets for attending research events, local conveyance for approved research trips, printing research posters, workshop/FDP registration, any laboratory item upto worth Rs.1500/- etc. A total amount to be given at a time for a single participation/contribution per user cannot exceed Rs.1500/-. It is obvious that if a single researcher plans to attend a series of events in a short span of (< 15 days) time, he/she can receive multiples of 1500/- from accounts after completing a desired approval process.
