GNIOT's Distinctive Features :

An Impactful Social Service Programs for Empowering the Next Generation

Social service is a strategy that GNIOT adopted for student's empowerment. GNIOT engage its students in NSS and Social activities which provide the opportunity to engage in community service activities that benefit the society at large. These activities helps the students to develop leadership skills, teamwork skills, and understanding of the issues, difficulties and the available challenges. A group of student volunteer visit the local villages and provides mask, sanitizer, study materials food and other basic services to individuals and villagers. Community meetings, interactions are being done to understand the rural and societal issues. The Basic objective of these strategies is to identify, analyze and provide innovative solutions to the issues. The issues are broadly classified as social, technical, community health and basic educations to bring an impactful change in the society. Feedback also taken periodically to improve the solutions adopted. GNIOT also received certificate of appreciations from TERRE (an initiative by AICTE, New Delhi and UNESCO)

GNIOT believes on student empowerment by providing services. This is an educational approach that integrates community service along with academic learning as a value addition. The institute implemented service-learning programs in various ways to engage students in meaningful social service activities that are aligned with the curriculum. Through service-learning, students acquire self-learning and life-long learning skills while making a positive impact in the community on real-world situations.

For instance, students work on projects that addresses environmental issues. They collaborate with local villages ((Junpat, Kheri, Rampur Bangar, Rampur Khadar, Bhogpur)) to focus on environmental conservation to design and build solar-powered water irrigation system for community in need. Students understand different water irrigation methods, designing, building the system and testing it in the field. Through this project, students learned about the importance of renewable energy, gain hands-on experience in engineering design, fabrication and contribute to improving the environment and public health affected due to diesel-based irrigation system. Since, stubble burning is a major issue in this region, student works on efficient recyclable methods to utilize the waste stubble that have been generated after the crop cutting.

In addition to address the environment pollutions due to the stubble burning, they also get involve in address community driven waste management campaigns. As a result, they learned about the organic and inorganic waste and the disposable techniques. These techniques not only help in reducing the volume of waste but also provide nutrient-rich compost for use in gardens and farms. Students develop a deeper understanding of the social issues and challenges and develop critical thinking, problem-solving skills along with learn a greater sense of civic responsibility.

GNIOT encourage the students to volunteer their time and skills in community service activities. By volunteering, students understand different social issues and cultures. The institute has partnered with local villages to provide volunteer services that align with the students' interests and skills. For example, our student volunteerism in community service activities involve by assembling at key points of the village for mask and sanitizer distribution, organizing health camps, blood donation and Nukkad Natak (street shows) events. This type of volunteering help the students to develop teamwork and organizational skills for those in need. Volunteering in community service activities such as tree plantation, community gardens, or litter clean-ups to name a few. This type of volunteering help our students to

develop a sense of environmental responsibility. GNIOT also encourage the students for mentorship program in community service activities. Students are allowed to serve as mentors to younger children or teenagers, provides support and guidance on topics such as academic successsocial skills, or career planning.They promote the villagers to use digital tools and platform such as UPI payments and precautions needs to take care while using smart phone and internet. This type of volunteering help students develops leadership, communication, and interpersonal skills, as well as a sense of responsibility and commitment to helping others.

Community outreach programs initiated by GNIOT allows students to understand the rural cultural barriers and their resistance to change. For example, our student participates in community outreach programs such as literacy drive for young children. Students volunteer as tutors/ mentors to help in improving reading skills, promote literacy, and foster a sense of learning. They also participate in community clean-up project, with local villagers to help clean up streets, parks, use of bio-toilet, sanitary pad distribution at public spaces under Unnat Bharat Abhiyan. This type of outreach program helps students develop interpersonal skills, and a sense of responsibility while improve the overall quality of life for community members.

GNIOT offer social entrepreneurship programs that empower students to develop innovative solutions to social problems. Social entrepreneurship programs provide students the skills and resources needed to begin social enterprises that addresses social issues. For instance, our students get involved in program that supports local farmers and villagers to promotes sustainable agriculture. Students work with local farmers to develop innovative solutions for challenges such as climate change, water shortages, cow dung and biogas to address renewable energy. This type of program helps our students to develop skills such as project management, marketing, and financial planning, while also supporting local farmers and promoting environmentally sustainable practices. They also provide services at Jan

Suvidha Kendra (Indian govt. initiative on-line facilitation center) for making the life of rural people easier.

Our students participating in social innovation programs to develop new solutions to social challenges and get involve in a range of activities such as design thinking, developing various prototype projects. They have developed smart water irrigation system, Smart security system for agricultural farming. Students work with local organizations that support social innovation, such as incubators or to develop their own social ventures or to support existing ventures. Collaborating with local communities to develop solutions to social issues such as, community health care and education. This type of program help students to develop various skills such as creativity, collaboration, and critical thinking, while contributing to social change.

In recognition of the importance of continuous learning and growth, GNIOT provides students with access to ongoing training and capacity-building programs. These programs equip students with the knowledge and skills necessary to tackle complex social issues and make a lasting impact. Through workshops, seminars, and guest lectures by renowned experts and practitioners in various fields, students gain valuable insights and exposure to diverse perspectives. This exposure enhances their understanding of social dynamics and encourages them to think critically and innovatively when approaching social challenges.

To foster a spirit of social responsibility and global citizenship, GNIOT also encourages students to participate in national and international volunteering opportunities. By engaging in projects and initiatives beyond their local communities, students broaden their horizons, develop cultural sensitivity, and gain a deeper appreciation for the interconnectedness of global issues. These experiences not only contribute to personal growth but also cultivate a sense of empathy and a commitment to creating positive change on a larger scale.

Through its comprehensive and multi-faceted social service programs, GNIOT remains dedicated to empowering the next generation of leaders, instilling in them a deep sense of social responsibility, and nurturing their potential to make a transformative impact in society. By equipping students with the necessary skills, knowledge, and experiences, GNIOT paves the way for a future where the next generation becomes catalysts for positive change, driving sustainable development and creating a more equitable and inclusive world for all.

Number of extension and outreach programmes conducted for GNIOTs' Distinctiveness by the institution through NSS/NCC/Red Cross/YRC etc., (including the programme such as Swachh Bharat, AIDS awareness, Gender issues etc. and/or those organised in collaboration with industry, community and NGOs during the last five years

डॉक्टर्स डे पर जिले में लगे हेल्थ कैंप

■ एनबीटी न्यूज, एस, नोएडा/ग्रेनो, दनकौर

चिकित्सक दिवस के अवसर पर रविवार को फोर्टिस अस्पताल के डॉक्टरों ने लायनेस क्लब सुरभि के सहयोग से सेक्टर-44 में निशुल्क हेल्थ चेकअप कैंप लगाया। इसमें 150 से अधिक मरीजों ने चेकअप कराया।

इस शिविर में सुरभि क्लब की संस्थापक अध्यक्ष राज गिरिडियाल, वर्तमान अध्यक्ष ममता मल्होत्रा, पूर्व अध्यक्ष कल्पना मिश्रा, वरिष्ठ अध्यक्ष कुमकुम मुखरिया, डॉली रस्तोगी और ममता अग्रवाल का सहयोग रहा। ग्रेटर नोएडा के सेक्टर पाई-2 की पूर्वांचल सिल्वर सिटी-2 में रविवार को डॉ. सुनैना फिजियोथेरेपी क्लिनिक पर इनर व्हील क्लब ग्रीन ने हड्डि जांच शिविर का आयोजन किया। इसका उद्घाटन अध्यक्ष मीरा अग्रवाल, सचिव मंजू गुप्ता, कोषाध्यक्ष आभा मित्तल, जीएनआईओटी के निदेशक डॉ. रोहित गर्ग, आरडब्ल्यू अध्यक्ष आलोक साध और जौद इनर व्हील क्लब की अध्यक्ष अनीता सिंगला ने किया। दनकौर के

फोर्टिस के डॉक्टरों ने सेक्टर-44 में कैंप लगाया

दनकौर में मिशन युवा शक्ति संगठन ने किया आयोजन

ग्रेनो की सिल्वर सिटी सोसायटी में भी लगा जांच शिविर

किसान आदर्श इंटर कॉलेज में मिशन युवा शक्ति संगठन ने रविवार को निशुल्क स्वास्थ्य शिविर लगाया। इसमें फिजिशियन डॉ. गुंजन किशोर शर्मा, डॉ. विनोय उपाध्याय, डॉ. तारिक खान, डॉ. राहुल गुप्ता, डॉ. अभय तोमर और डॉ. अंजलि ने करीब 400 लोगों की जांच की। इस मौके पर संगठन के राष्ट्रीय संरक्षक सोहन प्रधान, राष्ट्रीय संयोजक मनोज चौधरी, राष्ट्रीय अध्यक्ष सुमित चपरगढ़, उपाध्यक्ष उममेद एह्योकेट, राष्ट्रीय सचिव डॉ. जाफर मौजूद रहे।

शिविर

डॉक्टर दिवस पर शिविर लगाकर लोगों के स्वास्थ्य की हुई जांच

हड्डियों के बेहतर स्वास्थ्य के लिए नियमित व्यायाम व पौष्टिक आहार लें

ग्रेटर नोएडा, 1 जुलाई (देशबन्धु)। डॉक्टर दिवस के उपलक्ष्य में सेक्टर पाई-2 पूर्वांचल सिल्वर सिटी-2 स्थित डॉ. सुनैना फिजियोथेरेपी क्लिनिक पर इनर व्हील क्लब ग्रीन ग्रेटर नोएडा द्वारा एक मुफ्त हड्डि जांच का शिविर लगाया गया। इस शिविर का उद्घाटन अध्यक्ष मीरा अग्रवाल, सचिव मंजू गुप्ता, कोषाध्यक्ष आभा मित्तल, जीएनआईओटी के निदेशक डॉ. रोहित गर्ग, आरडब्ल्यू सिल्वर सिटी के अध्यक्ष आलोक साध एवं जौद इनर व्हील क्लब की अध्यक्ष अनीता सिंगला द्वारा किया गया।

शिविर में निरीक्षण हेतु डॉ. सुनैना के अतिरिक्त दिल्ली से विशेषज्ञ फिजियोथेरेपिस्ट डॉ. सुशाल गुप्ता को भी बुलाया गया। शिविर का लाभ 150 से अधिक मरीजों को मिला, जिसमें ज्यादा संख्या में महिलाएं एवं बुजुर्गों की रही।

डॉ. सुनैना ने इस परीक्षण के महत्व पर प्रकाश डालते हुए कहा कि यह ओस्टिओपोरोसिस एवं ओस्ट्रोपेनिया के जल्दी पता लगाने का एक सरल एवं विश्वसनीय तरीका है, ताकि लोगों को इस विकार का समय पर ज्ञान हो पाए। हड्डियों के बेहतर स्वास्थ्य को सुनिश्चित करने के लिए अधिक कैल्शियम युक्त आहार एवं नियंत्रित एक्सरसाइज के बारे में बताया। आरडब्ल्यू सिल्वर सिटी के लोगों में शिविर के प्रति उत्साह देखने को मिला और उन्होंने इनर व्हील क्लब का धन्यवाद किया।

जेआर अस्पताल ने गांव में कैंप लगाकर क्रिया आंखों का परीक्षण जेआर अस्पताल के चिकित्सकों ने चिकित्सक दिवस के अवसर पर चूहड़पुर गांव में आंखों का मुफ्त शिविर लगाया।

कैंप में 70 मरीजों का निःशुल्क परीक्षण किया गया जिसमें 13 मरीजों में मोतियाबिन्द पाया गया। डॉ. कपिल ने सलाह दी कि

मोतियाबिन्द का आपरेशन जल्द से जल्द करायें जिससे आंखों की रोशनी सही और पूरी आए और लोगों को बताया कि मोतियाबिन्द का ऑपरेशन किसी भी मौसम में करवाया जा सकता है। गर्मी में ऑपरेशन करने में आंखों का कोई भी नुकसान नहीं होगा और किसी भी मौसम में सिर्फ साफ सफाई व सैण्टिक आहार का ध्यान रखना होता है।

Webinar on Health Awareness

Date: 05.03.2018

The Electrical Engineering (EE) Department has organized a webinar on Health Awareness on 05th March 2028. Dr. EktaAgrawal, MD in homeopathy was the Guest speaker of the webinar. Dr. Ekta interacted with the students of the department and illuminated them with the specifics of living a healthy life. She discussed about a lot of common health problems in our day to day life and suggested measures to treat them. She also discussed about stress management in students' as well as faculties' life. Further she offered free online consultation to the GNIOT students and faculty members as a token of thanks. Students as well as faculty members of the department participated in the webinar with full enthusiasm.

Outcome:

The students became aware of the following:

1. How to live a healthy life?
2. Common health problems and their treatment.
3. Stress management among students as well as faculties

PLANTATION DRIVE (2018)

“To exist as a nation, to prosper as a state, to live as a people, we must have trees.”

Trees are the most benevolent givers in nature. They play an extremely important role in giving life and sustaining it, as a whole, as well as maintaining a balance in the eco-system. This makes it crucial for us to understand how significant trees are to our life on earth and what we can do to counter the problem of their depleting numbers and all the additional challenges that come with it.

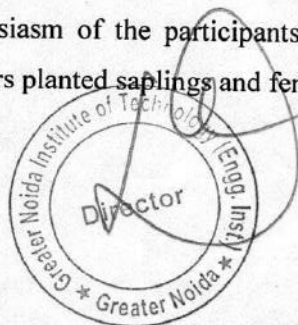

The Department of MCA has been organized the Tree Plantation Drive on 22nd April 2018 in occasion of “**Earth Day**” at GNIOT GROUP OF INSTITUTIONS campus under the Social Club. Considering the concept of “**Plant a tree today for a better tomorrow**”, the drive has been executed in presence of respected director Dr. Dhiraj Gupta, Faculty members, Staffs and Students of MCA 1st Year and 2nd Year.

Outcome of the Event:

Participants were highly energetic to make the event a big success. A spirit of teamwork, exchange of ideas and enthusiasm of the participants especially among the students could be seen. The students and teachers planted saplings and fenced them and watered the plants.

Date of Event: Wednesday, 06th June, 2018

Venue: Junpat Village, Greater Noida

Event Moderator: Mr. Shashikant

Organised by: Department of Civil Engineering

Several villagers in the fringes of Rampur Bhangar, Jewar Block, Greater Noida are open defecating. This lack of proper sanitation leads to negative impacts in the health of public, and may also lead to various diseases such as typhoid, diarrhea, intestinal infection, cholera and many others. The nearby water sources are also getting polluted because of the defecation done near it.

The need arises because of lack of infrastructure, unsafe and risky toilets which are poor in quality and lacks privacy, some of the villagers prefer being in nature or are not aware of the adverse effects because of it. Therefore, the need of the hour is to provide better facility as much as possible to reduce open defecation and educate them about the adverse effects.

GREATER NOIDA INSTITUTE OF TECHNOLOGY CIVIL ENGINEERING DEPARTMENT

Approved by AICTE & Affiliated to Dr. APJ Abdul Kalam Technical University, Lucknow)
No. 7, Knowledge Park - II Greater Noida, Gautam Buddh Nagar, Uttar Pradesh 201306, INDIA

The villagers are to be provided with type of toilet that treats human waste by biological process and reduces the fecal contamination. The role of Greater Noida Institute of Technology was to analyze the area where maximum open defecation is observed and provide bio-toilets near them. A team of faculty and students reached the villagers and make them aware about the adverse effects of open defecation, the benefit of using bio- toilet.

Here, the human waste or excreta goes to the bio digester tank which is filled with one third of the bacteria. The anaerobic bacteria decompose the human waste and converts it into CO₂, methane gas and water. The surface of the tank is increased by providing modules or chambers in the digester to increase the digestion. The grey water coming as an effluent can be used for irrigation purposes.

Important Dimensions, Volume of Bio-digester Tank & Materials required: 1. Length - 1150 mm 2-Width - 720 mm, 3. Height – 540 mm 4. Total Volume of Tank – 400 liters. 5. Effective Volume of Tank – 300 liters.

The main parts of the Bio digester tank consist of:

1. Tank with partition walls inside the tank.
2. Poly grass mats for protection of bacteria inside the walls.
3. Ball valve with handle for operation for making toilet direct discharge in case of choking.

Benefits from the Event:

- The proposed Bio-Toilet will lead to improved hygiene among villagers
- Health and mortality of the villagers will improve
- Aesthetics of the village will improve

CIVIL ENGINEERING DEPARTMENT

Approved by AICTE & Affiliated to Dr. APJ Abdul Kalam Technical University, Lucknow)
No. 7, Knowledge Park - II Greater Noida, Gautam Buddh Nagar, Uttar Pradesh 201306, INDIA

Outcome of the event:

Financial Resources: The final price per module comes out to be Rs. 28,500 as per the requirement in the village.

The following is the expected outcome of the Bio-Toilet Talk:

- Better hygiene of the villagers and less polluting of water sources. Meeting Health & sanitation requirements of the villages.
- Providing low-cost, high-quality manure for the crops – substitute for costly chemical fertilizers.
- Better educated and aware villagers will ensure proper sanitation and discipline.

HEALTH AWARENESS

(The Yoga-21st June 2018)

“Meditation brings Wisdom; lack of meditation leaves ignorance. Know well what leads you forward and what holds you back, and choose the path that leads to Wisdom”

Yoga is that discipline of science which deals with meditating physically, spiritually and mentally and it should be practiced on a regular basis. With the introduction of the Yoga day in 2014, December 11 on the appeal of the Indian Prime Minister Narendra Modi, it has become a widespread practice throughout the World. It had originated during ancient period in India which is now practiced in most parts of the World. It has now been gradually rooted in most parts of the World and schools and colleges encourage students for the same. People from almost all religions including Hinduism, Jainism and Buddhism consider Yoga a form of meditation.

With this thought MCA department participated in International Yoga Day organized by GNIOT GROUP OF INSTITUTIONS at play ground on 21st June 2018. International Yoga Day motivates you toward healthy eating and improves the metabolic system of the body.

Outcome of the Event:

Participants at the program were encouraged to incorporate healthy habits and also take various preventive measures so that in the upcoming times they can stay safe and sound. In addition, people present there are also spurred to boost up their daily nutrition intake. They are also given information on how to integrate and maintain hygiene in their lifestyle. This program is focused towards addressing issues of personal health care, vaccination, hygiene, and illness prevention.

EVENT TITLE:

“Session on Girl Hygiene & Education”

PARTICIPANTS:

Third year & Second Year IT Engineering Students & Faculty members.

OBJECTIVES:

- To make everyone aware of the importance of girl education and the noteworthiness of empowering them.
- To make everyone aware about girl hygiene and sanitation which is very important considering the various cycles they go through.

Coordinator of Event: Ms. Richa Bajaja

Report

Department of **Information Technology** in association with **Institution Innovation Cell (IIC)** organized a “**Session on Girl hygiene & Education**” on 9th July, 2018 from 10:00 AM onwards.

The Department of Information Technology organized a Session on Girl education and hygiene in JUNPAT village (village adopted by GNIOT) on 9/07/2018 from 10:00 am onwards.

Objective of this drive was:

- To make everyone aware of the importance of girl education and the noteworthiness of empowering them.
- To make everyone aware about girl hygiene and sanitation which is very important considering the various cycles they go through.

The motive was to explain that an educated girl contributes in every field and is a fortune for her family and country. Educating a girl is not less than educating a whole family.

Hod, IT Dr. Manoj Singhal Sir shared his views regarding the Girl Education and Hygiene and inspired students to promote it at their best.

More than 50 students of 2nd and 3rd year of IT Department along with the faculty members and village authority embraced the event with their presence and spread the awareness among the local school childrens and villagers.

Many students performed and acted in the form of Nukkad Natak and the act was phenomenal.

Moderator of the event was Ms. Ricah Bajaj, she spread awareness about girl education and hygiene together. She explained that Cleanliness is vital because of the various cycles girls go through, including menstruation. Ms. Bajaj told that poor hygiene can lead to the spread of bacteria in genitals, with unfortunate repercussions.

Other mentors, faculties, co-ordinators and students were present.

The session was very fruitful and interactive.

The outcome of the Program

1. Make them to understand that an educated woman has a lot of knowledge about good health care and the ability to care for her children better.
2. Girls' education will make them more independent and financially strong and less dependent on their family or husband.
3. Girl Education will help them to understand the importance of hygiene.

Event Description: A talk on "Bridge Strengthening Advanced Composite System" was delivered by Mr. Vivek Singh, Assistant Professor, JIMS, IP University, virtually on Google Meet. The talk focused on the use of advanced composite materials in bridge strengthening, with particular emphasis on the advanced composite system (ACS).

Mr. Singh began by discussing the importance of maintaining aging infrastructure, particularly bridges, to ensure the safety of users. He then highlighted the benefits of using advanced composite materials, such as carbon fiber reinforced polymer (CFRP) plates and epoxy resins, in retrofitting existing structures.

The ACS, Mr. Singh explained, is applied externally to the bridge's underside, providing additional flexural and shear strength. Mr. Singh went on to explain the steps involved in applying the ACS, including surface preparation, epoxy resin application, and CFRP plate positioning.

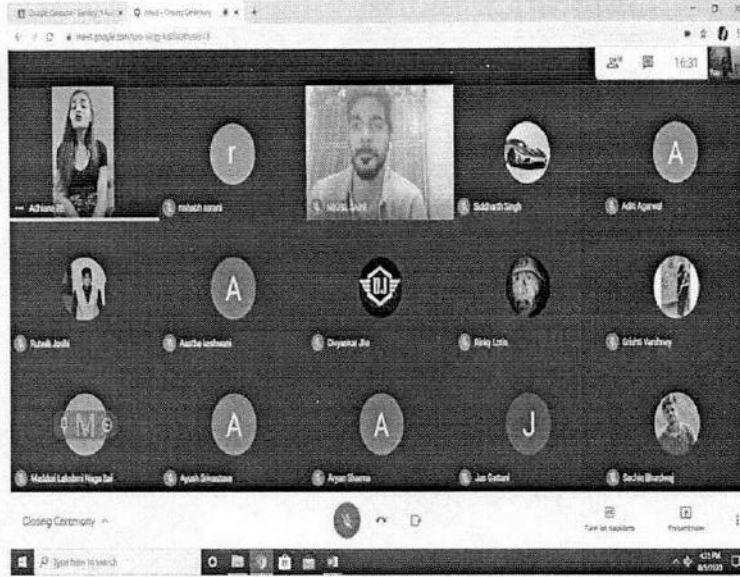

The talk emphasized the numerous benefits of the ACS, including its effectiveness in increasing the load-carrying capacity of a bridge, improving its resistance to fatigue and cracking, and reducing maintenance requirements. The system's lightweight and easy-to-apply nature also makes it a cost-effective solution for bridge strengthening.

Conclusion of the Event:-

In conclusion, Mr. Singh highlighted the importance of adopting innovative solutions such as the ACS to ensure the safety and longevity of aging infrastructure. The talk was well-received by attendees, who appreciated the practical insights and knowledge shared by the expert speaker.

PROGRAMME REPORT

Greater Noida Institute of Technology (GNIOT)

(An Initiative of Ministry of Education, Govt. of India)

Knowledge park-II, Greater Noida- 201308

www.gniot.net.in

EVENT TITLE:
“Plantation Drive”

PARTICIPANTS:

Third Year and Second Year IT Engineering Students & Faculty members.

OBJECTIVES:

- To plant trees as Tree Plantation drives combat many environmental issues like deforestation, erosion of soil, desertification in semi-arid areas, global warming and hence enhancing the beauty and balance of the environment.
- Trees absorb harmful gases and emit oxygen resulting in an increase in oxygen supply.

REPORT:

Students of IT department participated with great Zeal and Enthusiasm on the occasion of MASS TREE PLANTATION DRIVE on 07/08/2018.

The staff and students planted saplings in the garden of the school to raise awareness and consciousness about environment among the masses. Tree plantation is not just something that should be done; instead, it is a necessity, the urgent need of the hour. Planting of trees is especially important to protect our environment against air pollution and global warming. The drive was a huge success, empowering students with substantial knowledge of environment and plants.

Few glimpse of event's are:

The outcome of the Program

1. The purpose of making people aware of the importance of planting trees and to assist them in doing so.
2. Planting saplings to invest in the future on tree plantation day.

The outcome of the Program

1. The purpose of making people aware of the importance of planting trees and to assist them in doing so.
2. Planting saplings to invest in the future on tree plantation day.

NOTICE

GNIOT/ME/2018/

Date: 13/08/2018

Subject: Swachh Bharat

Mechanical Engineering Department is organizing a “Swachh Bharat” activity in the college campus and nearby area on 17th August 2018. The objective of this event is for welfare of society.

Venue: GNIOT and nearby area, Greater Noida

Date & Time: 17th August 2018 at 10:00 AM

Event Coordinator: Mr. S. Q. Husain

Dr. Sudhir Kumar
(HOD, ME)

Director
Greater Noida Institute of Technology
Greater Noida

REPORT

SWACHH BHARAT

17th August 2018

Organized by

Mechanical Engineering Department

Date: 17th August 2018

Location: College Campus and Nearby Area

Organizers: Mechanical Engineering Department

Objective: To promote cleanliness and hygiene in the college campus and nearby area.

Activities:

- Cleaning of the college campus and surrounding areas.
- Segregation of waste into recyclable and non-recyclable materials.
- Proper disposal of waste.
- Awareness campaign on the importance of cleanliness and hygiene.

Participants:

- Students and faculty members of the Mechanical Engineering Department.
- Volunteers from other departments and the local community.

Outcomes:

- A total of 35 volunteers participated in the activity.
- Approximately 100 kgs of waste was collected and disposed of.
- The area was left clean and hygienic.
- The initiative helped to create awareness among students and the local community about the importance of cleanliness and hygiene.

Conclusion: The "Swachh Bharat" initiative organized by the Mechanical Engineering Department, GNIOT Gr. Noida was a great success. It not only helped to promote cleanliness and hygiene but also created awareness among students and the local community about the importance of keeping our surroundings clean. This event was successfully organized under the guidance of our Director Prof. (Dr.) Rohit Garg, HOD Mechanical Prof. (Dr.) Sudhir Kumar, Dy HOD Mr. Gagan Varshney, and other faculty members. The activity was coordinated by Mr. S. Q. Husain.

Subject: Plantation Drive

Summary Report

The Computer Science & Engineering Department successfully organized a "Plantation Drive" in the college campus on 07-09-2018. The students planted tree saplings and realized the impact of green trees on our ecosystem and general wellbeing.

Tree plantation is a process where a large number of trees or seedlings are planted for land reclamation or landscaping. Planting large numbers of trees helps to purify the polluted air that we breathe in. Plants play a big role in our ecosystem by maintaining a balance among all the elements that are present in nature. Planting more trees also helps to keep in check the climate conditions of a place.

Event Coordinator: Mr. Ashwini Verma

The following students participated in the Plantation Drive organized by the Department of Computer Science & Engineering on 07 September 2018.

Date: 07.09.2018

Dear Students,

You are hereby informed that as per the academic calendar, the department is going to organize the event on "Gender equality and empower all women and girls" on 14th September 2018.

The students are requested to present in full strength and take the maximum benefit of the expert talk on the topic.

An event on

"Gender equality and empower all women and girls"

**14-September-2018
(02:00 PM to 04:45PM)**

PROGRAMME REPORT

Organized by

**The Rising Corner Club
Greater Noida Institute of
Technology (GNIOT)
(An Initiative of Ministry of Education, Govt. of India)
Knowledge park-II, Greater Noida- 201308
www.gniot.net.in**

EVENT TITLE:

Gender equality and empower all women and girls

PARTICIPANTS:

All IT Engineering Students & Faculty members.

OBJECTIVES:

- The main motive of the event was to understand about gender equality that it is not only a fundamental human right, but a necessary foundation for a peaceful, prosperous and sustainable world.
- End all forms of discrimination against all women and girls everywhere.
- Eliminate all forms of violence against all women and girls in the public and private spheres, including trafficking and sexual and other types of exploitation.

Speaker of the Event: Ms. Parul Srivastava

**Profile of the Speaker**

- The speaker of this event was an experienced CBSE teacher having more than 16 years of experience.
- She has done M.A. in English and B.Ed from Rohillkand University. She has worked as English and Music teacher in Balwant Rai Mehta

VidyaBhawan, New.Delhi from 2004 to 2005, in Sunbeam Public School, Kanpur from 2008 to 2013, in PanchsheelBalak Inter College Noida from 2013 to 2016, in Ralli International School from 2018.

- She also worked as a coordinator for preparing students for inter school competitions for Debates, cultural programs and internal school activities.

Report

“Gender equality is a human right. Women are entitled to live with dignity and with freedom from want and from fear. Gender equality is also a precondition for advancing development and reducing poverty: Empowered women contribute to the health and productivity of whole families and communities, and they improve prospects for the next generation.”

IT Department has organized an event on Gender equality and empower all women and girls on 14th September 2018. The main motive of the event was to understand about gender equality that it is not only a fundamental human right, but a necessary foundation for a peaceful, prosperous and sustainable world.

The event was hosted by Ms. Monika Singh, student of IT 3rd year who highlighted the motive of the event and welcomed the Guest Speaker, Ms.Parul Srivastava and thanked the speaker for sparing her valuable time to enrich the students.She addressed the challenges girls face and to promote girls' empowerment and the fulfilment of their human rights.

Bhavya Gupta, Deepali Gaur and Aishwarya Sharma from IT 3rd Year also presented their views upon the topic. The session was attended by more than 50 students and all faculty members of IT.

The Event was an interactive Question and Answer session. The session was very fruitful and interactive.

Photographs:

OUTCOME OF THE PROGRAM

1. We all should work together to ensure that girls are connected, supported and empowered.
2. We should adopt and strengthen sound policies and enforceable legislation for the promotion of gender equality and the empowerment of all women and girls at all levels.

Mechanical Engineering Department

NOTICE

GNIOT/ME/2018/

Date: 04/09/2018

Subject: Plantation Drive

Mechanical Engineering Department is organizing a “**Plantation Drive**” event in GNIOT and nearby location on 6th September 2018. The objective of this event is for welfare of society.

Venue: GNIOT and nearby location, Greater Noida

Date & Time: 6th September 2018 (Thursday) at 11:00 AM

Event Coordinator: Mr. Anuj Dixit

Dr. Sudhir Kumar
(HOD, ME)

ACTIVITY REPORT

Plantation Drive

06th September 2018

Organized by

Mechanical Engineering Department

Date: 06th September 2018

Location: GNIOT and nearby locations

Organizers: Mechanical Engineering Department, GNIOT, Gr. Noida

Objective: To promote greenery and raise awareness about the importance of environmental conservation in GNIOT.

Activities:

- Plantation of saplings in the GNIOT campus.
- Distribution of saplings to volunteers for plantation in their own locality.
- Presentation on the importance of environmental conservation and the benefits of greenery.
- Inspection of the plantation sites and monitoring of the growth of the saplings.

Participants:

- Students, faculty & staff members of the Mechanical Engineering Department.

Outcomes:

- A total of 60 saplings were planted in the GNIOT campus.
- Approximately 40 saplings were distributed to volunteers for plantation in their own locality.
- The initiative helped to create awareness among the local community about the importance of environmental conservation & its benefits.
- The plantation sites were inspected and the growth of the saplings was monitored.

Conclusion: The plantation drive event organized by the Mechanical Engineering Department, GNIOT, Gr. Noida was a great success. It not only helped to promote greenery and environmental conservation but also created awareness among the local community about the importance of preserving our environment. This event was successfully organized under the guidance of our Director Prof. (Dr.) Rohit Garg, HOD ME Prof. (Dr.) Sudhir Kumar, and other faculty members. The activity was coordinated by Mr. Anuj Dixit.

ACTIVITY REPORT

ANTI-DENGUE-MALARIA MEASURES

14th September 2018

Organized by

Mechanical Engineering Department

Date: 14th September 2018

Location: Village Palla, Post Dadri, Greater Noida

Organizers: Mechanical Engineering Department

Objective: To promote awareness about dengue and malaria prevention and control measures in the college campus and nearby area.

Activities:

- Conducted a lecture on dengue and malaria prevention and control measures for students and staff members.
- Distributed pamphlets and brochures to students and staff members to create awareness.
- Inspected the college campus and nearby areas for mosquito breeding sites.
- Sprayed insecticides in areas where mosquito breeding sites were found.
- Cleaning of the college campus and surrounding areas to prevent the accumulation of stagnant water.

Participants:

- Students, faculty & staff members of the Mechanical Engineering Department.

Outcomes:

- Approximately 30 students and staff members attended the lecture on dengue and malaria prevention and control measures.
- Pamphlets and brochures were distributed to all the attendees.
- The inspection of the college campus and nearby areas helped to identify potential mosquito breeding sites.
- Spraying of insecticides helped to control the mosquito population.
- Cleaning of the college campus and surrounding areas helped to prevent the accumulation of stagnant water.

Conclusion: The "Anti-Dengue-Malaria Measures" activity organized by the Mechanical Engineering Department, GNIOT, Gr. Noida was a great success. It not only helped to promote awareness about dengue and malaria prevention and control measures but also helped to identify potential mosquito breeding sites and control the mosquito population in the college campus and nearby areas. This event was successfully organized under the guidance of our Director Prof. (Dr.) Rohit Garg, HOD Mechanical Prof. (Dr.) Sudhir Kumar, Dy HOD Mr. Gagan Varshney, and other faculty members. The activity was coordinated by Mr. Sunit Kumar.

INDIAN CULTURE & WOMEN EMPOWERMENT

Date: 17.09.2018

The Electrical Engineering (EE) Department conducted a debate competition on 'Indian Culture & Women Empowerment'. Chief Guest for the event was Ms. InduBhushan, HOD, EEE/ECE, LLOYD Engineering College, Greater Noida. She illuminated the students about the use of latest technology for women empowerment and encouraged the students to support the same. A myriad of students participated in the debate competition and made it a huge success. And last but not the least, thanks to the consistent efforts of Dr. Nikhil Gupta, HOD EE Dept. and the invaluable support from the EE teaching fraternity that brought the event to a successful conclusion.

Outcome:

1. The students learned a lot about Indian culture and women empowerment through a debate competition.
2. The chief guest encouraged the students to promote women empowerment.

Event Description: Mr. Kamal Kumar Pandey, a Structural Design Engineer from Lucknow, gave a talk on "Earthquake Resistant Techniques" at the seminar hall of GNIOT. The talk aimed to educate the audience about the importance of designing earthquake-resistant structures and the various techniques involved in it.

Mr. Pandey started the talk by discussing the causes of earthquakes and their impact on structures. He highlighted that the main reason behind earthquakes is the movement of tectonic plates in the Earth's crust. When the plates move, they create seismic waves, which cause vibrations in the ground. If the vibrations are strong enough, they can cause buildings and other structures to collapse.

He then talked about the different techniques used to make buildings earthquake-resistant. One of the primary techniques is to use reinforced concrete in construction. Reinforced concrete is a combination of concrete and steel, which makes it more resilient to earthquakes. Steel is added to concrete to increase its tensile strength, making it less likely to crack or break under stress.

Another technique is to use seismic isolation systems, which are designed to absorb the energy generated by an earthquake. These systems work by using dampers or springs to reduce the amount of force transferred to the structure. This technique is commonly used in high-rise buildings, bridges, and other large structures.

In conclusion, Mr. Pandey's talk provided valuable insights into earthquake-resistant techniques. He stressed the importance of using reinforced concrete, seismic isolation systems, and proper planning and design to create structures that can withstand earthquakes. The talk was informative and engaging, and it was well-received by the audience. Overall, it was a great learning experience for everyone who attended the talk.

Summary Report

The Computer Science & Engineering Department successfully organized a "Women Awareness Lecture" in the college campus on 28-09-2018. The resource person was Ms. Neda Firoz. The students got information about Women Awareness.

Indian culture gives women the utmost respect. Many of our gods are female and they have been worshipped as a deity by many faithful people. The goddess of wealth is Laxmi, the goddess of power and strength is Durga and the goddess of wisdom is Saraswati. Women are the epitome of wealth and power. Women play an important role in society and the whole family is dependent on women for its daily activities. They play the role of mother, wife, homemaker, cook, teacher, friend, Nurse all at the same time while catering to every body's needs.

Subject: Tree plantation

Department of Electronics and Communication Engineering have organizing a "Tree plantation" activity on 28th September 2018. Tree plantation is the process of **transferring of seedlings from one place to another for different purposes**. There are various reasons behind tree plantation but the most important are forestry, land reclamation, and landscaping. Each process of tree plantation is important and unique in its own way.

Venue: Village- Astauli, Post- Dadri, Greater Noida

**“TREES ARE THE ROOTS OF OUR
EXISTANCE”**

28th September 2018

Organized by

Electronics and Communication Engineering Department

Report on "Tree Plantation" Conducted by Electronics and Communication Department in Astauli Village: "Trees are the roots of our existence."

As part of their dedication to environmental protection and long-term sustainability, students in the ECE department planted trees at Astauli Village on September 28th, 2018. The event was intended to raise public consciousness about the value of trees and the need of tree planting to build a more aesthetically pleasing and ecologically sound community.

The program's core focus was the famous remark by G. K. Chesterton, "Trees are the roots of our existence," which emphasised the importance of trees to the planet's ecology and the survival of all species. Faculty, students, and employees from the Electrical and Computer Engineering Department all took part in the tree-planting effort.

The programme began with an introduction from the Head of the ECE Department, who spoke briefly about the role trees play in reducing greenhouse gas emissions, protecting biodiversity, and sustaining ecosystem functions. He urged the attendees to actively participate to tree planting initiatives and support sustainable environmental practices.

Participants then planted native tree seedlings in and around Astauli Village after the presentation. Saplings were planted in specified sites including parks, schools, and public spaces, and were selected with consideration for the local climate and soil conditions. To guarantee the survival and development of the seedlings, the participants were also instructed on the necessary practises of tree planting, such as excavating the right-sized hole, watering, and mulching.

During the event, several participants shared their perspectives on the importance of tree plantation in our lives. Here are some quotes from notable individuals:

1. Dr. Anil Kumar, a faculty member from the ECE Department, shared, "Tree plantation is a crucial step towards mitigating climate change and conserving our natural resources. Trees provide us with clean air, clean water, and a healthy environment. It is our responsibility to protect and preserve them for future generations."
2. Mr. Ekta, a student from the ECE Department, said, "Trees are not just a source of oxygen, but also a habitat for various birds, animals, and insects. Through this tree plantation drive, we aim to create a greener environment and promote biodiversity conservation. Trees are our lifeline."

Plot No. 7, Knowledge Park II, Greater Noida, (UP) 201306 | www.gniotgroup.edu.in | 1800-274-6969

At the end of the ceremony, everyone present committed to maintaining the newly planted trees and spreading awareness of the importance of tree planting in the future. Astauli residents thought the event was great and applauded the ECE Department's efforts to spread awareness about the importance of protecting the planet.

Finally, the tree plantation campaign held on September 28th by the Electronics and Communication Department in Astauli Village intended to highlight the value of trees in our ecosystem and raise awareness about the need for tree planting for a greener and healthier environment. The event emphasised the importance of trees as the foundation of our existence and the need of protecting and preserving them for a sustainable future. The ECE Department's strong involvement and engagement with the villagers demonstrated their dedication to environmental protection and attempts to promote a greener and healthier environment.

Webinar on Health Awareness

Date: 25.09.2018

The Electrical Engineering (EE) Department organized a webinar on Health Awareness on 25th September 2018. Guest speaker of the webinar was Dr. Ekta Agrawal, MD in homeopathy. Dr. Ekta interacted with the students of the department and illuminated them with the specifics of living a healthy life. She discussed about a lot of common health problems in our day to day life and suggested measures to treat them. She also discussed about stress management in students' as well as faculties' life. Further she offered free online consultation to the GNIOT students and faculty members as a token of thanks. Students as well as faculty members of the department participated in the webinar with full enthusiasm.

Outcome:

The students became aware of the following:

1. How to live a healthy life?
2. Common health problems and their treatment.
3. Stress management among students as well as faculties

Subject: Swachh Bharat

Summary Report

The Computer Science & Engineering Department successfully organized "Swachh Bharat" activity in the college campus on 11-10-2018. Dr. Vikas Chaudhary was the resource person.

The Sustainable Development Goals (SDGs) place significant emphasis on sanitation, cleanliness and hygiene. There is evidence globally that better sanitation, hygiene and cleanliness helps in effective control of various vector borne diseases, parasite infections and nutritional deficiencies. There have been studies linking cleanliness and hygiene with reduction in respiratory disorders, gastrointestinal diseases (especially diarrhoea), psychological issues and allergic conditions. Swachh Bharat Mission addresses all these issues.

The students were made aware to observe habits of cleanliness in and around their college and residences.

Event Coordinator: Mr. Ashwini Verma

Summary Report on Gender Equality Lecture

The Computer Science & Engineering Department successfully organized a "Gender Equality Lecture" in the college campus on 12-10-2018. Dr. Mamta Rani was the resource person. The students got information about Gender Equality.

Primarily it was discussed that we, the college students and faculty members, should, in our manner and demeanour, observe gender equality. We, the educated class, have greater responsibility, to spread the information about gender equality.

Event Coordinator: Mr. Ashwini Verma

The following students participated in the Gender Equality Lecture organized by the Department of Computer Science & Engineering on 12 October 2018.

REPORT

GIRLS EDUCATION

On

“IF YOU EDUCATE A GIRLS YOU EDUCATE A
NATION”

11th October 2018

Organized by

Electronics and Communication Engineering Department

**Report on Girls Education Conducted by Electronics and Communication
Department on 11th October 2018 "If you educate a Girl you educate
nation"**

On October 11th, 2018, the Department of Electronics and Communication (ECE) hosted a unique event to highlight the importance of girls' education. This gathering was held to celebrate the transformative potential of education for girls and bring about good change in the small farming community of Birondi Village.

The event's subject was "Educate a girl and she will change the world," and its message resonated with the audience of policymakers, teachers, parents, and young women. To get the community involved and highlight the importance of girls' education in the area of electronics and communication, the event comprised a wide range of activities, from informational seminars to technical workshops to motivating presentations.

Several speakers at the occasion discussed the value of girls' education. Some famous people have said the following:

According to Ms. Sonika Saini, Assistant Professor in the Department of Electronics and Communication, "Girls have enormous potential in all fields of life." We can enable them to become leaders and change-makers in the realm of technology by giving them with education and chances." Ms. Nishi Atrey, a prominent female engineer and department faculty member, said, "As a woman working in the department of electronics and communication, I understand the value of education." It has provided me with opportunities and allowed me to follow my interest. Let us educate our daughters and see them use their abilities and knowledge to change the world."

The event also focused on the challenges and barriers that girls may face in pursuing education and in careers such as societal norms, lack of resources, and gender stereotypes. Participants discussed ways to overcome these challenges and promote gender equality in the field of technology, including encouraging girls to pursue STEM (Science, Technology, Engineering, and Mathematics) education, providing scholarships and mentorship opportunities, and promoting a supportive and inclusive learning environment.

DEPARTMENT OF ECE SESSION ON GIRLS EDUCATION

Venue: Village- Birondi, Post- Dadri, Greater Noida

11th October 2018 (Thursday) at 10:00 AM

Plot No.7, Knowledge Park II, Greater Noida, Uttar Pradesh 201310, INDIA
www.gniotgroup.edu.in | Toll Free No. 1800-2746-969

In conclusion, the event conducted by the Electronics and Communication Department in Birondi Village on 11th October 2018 emphasized the importance of girls' education in every field of life. The quote, "Educate a girl and she will change the world," encapsulated the transformative power of education in empowering girls to become leaders, innovators, and

change-makers in the field of technology and beyond. The event highlighted the need for continued efforts to promote girls' education and gender equality in the field of electronics and communication, and the importance of investing in the potential of girls for a brighter and more inclusive future.

REPORT

DENGUE-MALARIA AWARENESS PROGRAM

Organizing

On

24th October 2018

Organized by

Electronics and Communication Engineering Department

**Report on Dengue-Malaria Awareness Program Conducted by the
department of Electronics and Communication Engineering in Badalpur
Village: "Stop Mosquitoes stop Dengue and Malaria"**

On October 26, 2018, the Electronics and Communication (ECE) Department held a Dengue-Malaria Awareness Programme in Badalpur Village, with the goal of raising awareness about the prevention and management of Dengue and Malaria, two mosquito-borne illnesses in the area. The program's slogan was "Stop Mosquitoes, Stop Dengue and Malaria," emphasising the need of mosquito control in avoiding the spread of these illnesses.

The programme began with an educational session that provided information about the causes, symptoms, and prevention actions for Dengue and Malaria. He emphasised the need of keeping things clean and taking preventative steps to limit mosquito breeding and bite prevention, such as using mosquito nets and repellents and getting rid of stagnant water.

Following the lecture, participants from the ECE Department, including students, teachers, and staff, participated in interactive discussions and practical demonstrations on Dengue and Malaria prevention. This featured demonstrations on how to properly use mosquito nets, the necessity of keeping your surroundings clean to minimise mosquito breeding, and appropriate garbage disposal to eliminate mosquito breeding sites.

During the program, participants expressed their views on the significance of Dengue and Malaria prevention in their community. Here are some quotations from notable individuals:

1. Mr. Pawan Kumar, an ECE Department faculty member, said, "Preventing Dengue and Malaria is a collaborative effort that requires the participation of the entire community." It is critical that we educate ourselves and others on the necessity of mosquito control methods, and that we take the required precautions to avoid mosquito breeding in our surroundings."
2. Mr. Neeraj Dixit, an ECE Department student, said, "Dengue and Malaria are serious diseases that can have serious consequences on our health and well-being." To protect ourselves and our community from these illnesses, we must promote knowledge about mosquito control techniques and practise preventative actions."

All participants pledged to actively engage in Dengue and Malaria prevention activities and raise awareness about the significance of mosquito control in their communities at the end of the programme. The programme was well welcomed by the residents of Badalpur, who praised the ECE Department's efforts to raise awareness about Dengue and Malaria

prevention and control.

(HOD, ME)

ACTIVITY REPORT

Waste Management

02nd November 2018

Organized by

Mechanical Engineering Department

Date: 02nd November 2018 (Friday) at 10:00 AM

Location: Village Palla, Post Dadri, Greater Noida

Organizers: Mechanical Engineering Department

Objective: To promote proper waste management practices and cleanliness in GNIOT.

Activities:

- Cleaning of the GNIOT campus.
- Segregation of waste into recyclable and non-recyclable materials..
- Awareness campaign on the importance of waste management and cleanliness.

Participants:

- Students, faculty & staff members of the Mechanical Engineering Department.

Outcomes:

- A total of 35 volunteers participated in the activity.
- Approximately 45 kgs of waste was collected and disposed of properly.
- The GNIOT campus was left clean and hygienic.
- The initiative helped to create awareness among the local community about the importance of proper waste management and cleanliness.

Conclusion: The Waste Management activity organized by the Mechanical Engineering Department, GNIOT Gr. Noida was a great success. It not only helped to promote proper waste management and cleanliness but also created awareness among the local community about the importance of keeping our surroundings clean. We hope that such initiatives will continue in the future, and more people will join us in our efforts to promote a clean and hygienic environment. This event was successfully organized under the guidance of our Director Prof. (Dr.) Rohit Garg, HOD Mechanical Prof. (Dr.) Sudhir Kumar, and other faculty members. The activity was coordinated by Mr. Gagan Varshney.

Department of MCA

Blood Donation Camp (11th November, 2018)

"Do well for others by giving from what you have. Surely, it will come back to you with greater value - donate blood"

Blood donation is a vital part of worldwide healthcare. It allows for blood transfusion as a life-sustaining and life-saving procedure. Over one hundred million units of blood are donated each year throughout the world. This activity reviews donor eligibility and selection, adverse effects of donation, and pathogen reduction and inactivation for donated blood. This activity highlights the role of the inter-professional team in ensuring appropriate protocol is followed.

GNIOT Group of Institutions keeping with its policy of commitment towards society organized a blood donation camp in association with GIMS, Greater Noida and department of MCA participated in blood donation camp. There were 250 units of blood mobilized during the camp by different courses. The fitness of donors for donation was checked by the team of competent doctors and under arrangements for safe and hygienic blood donation. This event successfully executed in the presence of Honorable Chairman Dr. Rajesh Gupta, Honorable vice Chairman ShriGaurav Gupta and respected director Dr. Dhiraj Gupta.

Outcome of the Event:

Blood donation camps are organized with the purpose of supplying blood to the blood banks for the need of patients suffering from various diseases such as cancer, hemophilia, and thalassemia or accident victims.

NAME OF EVENT:- " SEMINAR" ON THE TOPIC " INFECTION PREVENTION AND CONTROL "

Date & Time of Event:- 16.11.2018 from 2:00 - 5:00 PM

The Department of Information Technology (Greater Noida Institute of Technology) has successfully conducted a **SEMINAR** on the topic "**INFECTION PREVENTION AND CONTROL**" for the third year students under the supervision of our Director Prof. Rohit Garg, Head of Department Prof. Dr. Manoj Singhal , our guests Dr. Vikash Kumar, Chief Medical Officer, Dankour, Greater Noida, Dr. Nikhil Sharma, Skin Specialist, Kailash Hospital, Greater Noida and faculty Coordinators and the cornerstone, the participants of this event. Dr. Vikash discussed causes of infection and their impact on our life mostly focused on how skin infection may dangerous for life and Dr. Nikhil advice various prevention and control technique of infection, the causes of infection was also being discussed. The session was quite interactive and the students have grasped the basics of Infection. This Event gave the students a glimpse of the needs for healthcare. All students take pledge to good habits necessary for preventing for infection as well as health care.

The outcome of the Program

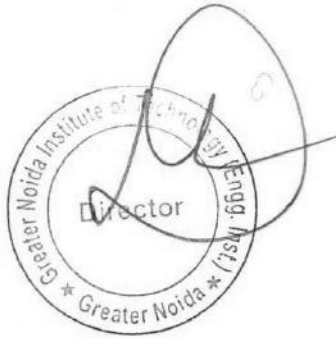

1. Make them to understand that an educated woman has a lot of knowledge about good health care and the ability to care for her children better.
2. Infection prevention and control will make them more independent and financially strong and less dependent on their family or husband.
3. Infection prevention will help them to understand the importance of hygiene.

Clean-A-Thon Drive

Date: 19/11/2018

The Electrical Engineering (EE) department successfully and enthusiastically conducted the Clean-a-thon drive in the premises of the Greater Noida Authority, Greater Noida on 19.11.2018. Bolstered from the indelible efforts of the Honorable Management of the GNIOT and Dr. Dheeraj Gupta, Director, GNIOT (Engineering Institute), the drive proved to be a pivotal event. Mentioning too the restless endeavors of Dr. Nikhil Gupta, HOD, EE department because of which the drive could become a success. All the noteworthy faculty members and students of the EE department participated in the drive with full zeal. At the last, thanks to Mr. Anupam Kumar, Deputy Registrar, Greater Noida Authority, for his vital support in making the event successful.

Outcome:

Through this drive, the students knew the importance of cleanliness. They learnt that the living surroundings should be neat and clean to create an ambiance of learning.

Name of Event: Visit to Village Rampur for promoting hygiene in horticulture and animal husbandry activities

Date of Event: 7th Dec 2018

Organized by: Greater Noida Institute of Technology.

Event Poster:

Event Description: Promoting hygiene in horticulture and animal husbandry activities is an important task that can have significant benefits for both the environment and the health of the community. Here are some steps taken to promote hygiene in Rampur:

Conduction of needs assessment: Before starting any hygiene promotion activities, it is important to understand the current hygiene practices in the community and identify areas that need improvement. Conducting a needs assessment can help tailor approach to the specific needs of the community.

GNIOT
K. P. S. G. INSTITUTE

ग्रेटर नोएडा इंस्टीट्यूट ऑफ टेक्नोलॉजी (इंजीनियरिंग इंस्टीट्यूट)
GREATER NOIDA INSTITUTE OF TECHNOLOGY (Engg. Institute)

Engaging with the community: Building trust and rapport with the community is key to successfully promoting hygiene practices. Essential of such are meetings with local leaders, farmers, and other stakeholders to discuss the importance of hygiene and gather feedback on how best to approach the issue.

Providing education and training: Many farmers and animal husbandry workers may not be aware of the best hygiene practices for their work. So proper education and training on topics such as hand washing, cleaning and disinfecting equipment, and proper waste disposal was provided.

Demonstrating best practices: It can be helpful to demonstrate best practices for hygiene in horticulture and animal husbandry activities. So, field demonstrations of proper hand washing techniques, equipment cleaning, and waste disposal was also carried out in this event..

Providing resources: To help farmers and animal husbandry workers to implement good hygiene practices, use of several resources such as soap and hand sanitizer, cleaning supplies, and waste disposal containers was also promoted.

Monitoring the progress: Regular monitoring and evaluation of the hygiene promotion activities can help us to determine what is working and what needs improvement. Collection of data on hygiene practices before and after the intervention to assess the impact of your efforts was also ensured and for that several local authorities were chosen to promote the initiative.

Conclusion:

Overall, promoting hygiene in Rampur's horticulture and animal husbandry activities was a great initiative and collaborative approach that engaged with the community and provided education, training, and resources. By continuously working together, the health and well-being can be improved, of the community while promoting sustainable farming practices.

The event was ended up with success as the villagers were very happy to know the importance of hygiene in horticulture and animal husbandry-related work. As it not only promotes healthy living but minimizes the economic risk occurring due to poor health.

On

“Blood Donation Camp”

21 Dec 2018

Organized by

**Department of Civil Engineering
Greater Noida Institute of Technology, Greater Noida**

A Blood Donation Camp was organized by our institute, under the auspices of AKTU, Lucknow. The aim of the camp was to create awareness about the importance of blood donation and to encourage students, staff, and faculty to donate blood.

Preparations:

The camp was organized with the help of a team of doctors and volunteers from the Blood Bank. The team ensured that all the necessary arrangements were made for the camp. The organizers also made sure that all the donors were screened for eligibility to donate blood, and necessary precautions were taken to maintain social distancing and other safety protocols.

Execution:

The blood donation camp was held on the premises of by our institute, and it was open to all students, staff, and faculty members of the institute. The response from the students was overwhelming, and many of them volunteered to donate blood. The doctors and volunteers from the Blood Bank managed the donation process efficiently, and all necessary precautions were taken to ensure the safety of the donors.

Impact:

The blood donation camp organized by our institute was a success. It helped in raising awareness about the importance of blood donation and encouraged many students, staff, and faculty members to donate blood. The camp also helped in creating a sense of social responsibility among the students and staff members.

Conclusion of the event:

The blood donation camp organized by our institute, under the auspices of AKTU, Lucknow, was a commendable effort. It helped in promoting the spirit of social responsibility and encouraged students, staff, and faculty members to donate blood. Such initiatives are necessary to create awareness about the importance of blood donation and to ensure that the blood banks have an adequate supply of blood for emergency situations.

National Girl Child Day

Event Description:

"Little Girls with Dreams become women with Vision"

Under the profound guidance of the **Director** and **HoD-CE**. The Department of Civil Engineering has successfully organized the Social Awareness Program on '**National Girl Child Day**' on 24.01.2019 under the aegis of NSS at GNIOT for all our housekeeping members and their daughter.

Different Government Yojanas, Schemes and brief discussions about menstruation and women empowerment were discussed with them. Special thanks to Mrs. Ranjana Agarwal for joining. National Girl Child Day is celebrated annually on the 24th of January in India to raise awareness about the importance of girls' education, health, and nutrition. It is an initiative by the Government of India to promote gender equality and empower girls in the country. In this report, I will provide an overview of National Girl Child Day and its significance.

History and Significance:

National Girl Child Day was first celebrated in India in 2008 to raise awareness about the declining child sex ratio in the country. The day aims to promote girls' rights, education, and healthcare and create a safe and empowering environment for girls in the country.

The day is significant as it highlights the challenges faced by girls in India and the importance of empowering them to achieve their full potential. It also promotes the need for gender equality and the elimination of discrimination against girls.

Activities and Programs:

On National Girl Child Day, various activities and programs are organized across the country to raise awareness about the importance of girls' education, health, and empowerment. These activities include seminars, workshops, rallies, and cultural programs that celebrate the achievements of girls and promote their rights.

The Government of India has also launched various initiatives and schemes to support girls' education and health. **These initiatives include the Beti Bachao Beti Padhao (Save the Girl Child, Educate the Girl Child) campaign, the Sukanya Samridhi Yojana (Girl Child Prosperity Account), and the Kasturba Gandhi Balika Vidyalaya (KGBV) scheme, which provides free education to girls from disadvantaged backgrounds.**

Impact:

National Girl Child Day has had a significant impact on the lives of girls in India. The day has helped raise awareness about the importance of girls' education, health, and empowerment and has led to the launch of various initiatives and schemes to support their development.

The Beti Bachao Beti Padhao campaign, for instance, has helped improve the child sex ratio in several states in India, and the Sukanya Samridhi Yojana has encouraged parents to save for their daughters' future. The KGBV scheme has also helped provide education to girls who would otherwise not have access to it.

Conclusion:

In conclusion, National Girl Child Day is an important initiative by the Government of India to promote gender equality and empower girls in the country. The day has helped raise awareness about the challenges faced by girls and the need to provide them with education, health, and empowerment. The initiatives and schemes launched by the government have had a significant impact on the lives of girls in India, and more needs to be done to ensure that they have equal opportunities to succeed and thrive.

Date: 11.03.2019

NOTICE

This is to inform the students that as per the academic calendar the department is organizing the events for the current semester, continuing the same practice you are all informed that an event "Session on Girl Hygiene & Education" is scheduled on 13.03.2019 from 10:00 AM - 1:00 PM.

The students are requested to present in full strength and take the maximum benefit of this event.

An event on

"Session on Girl Hygiene & Education"

*13 March 2019
(10:00 AM - 1:00 PM)*

PROGRAMME REPORT

Organized by

**Department of Information Technology in Association with IIC
Greater Noida Institute of Technology (GNIOT)**

(An Initiative of Ministry of Education, Govt. of India)

Knowledge park-II, Greater Noida- 201308

www.gniot.net.in

EVENT TITLE:

“Session on Girl Hygiene & Education”

PARTICIPANTS:

Third year & Second Year IT Engineering Students & Faculty members.

OBJECTIVES:

- To make everyone aware of the importance of girl education and the noteworthiness of empowering them.
- To make everyone aware about girl hygiene and sanitation which is very important considering the various cycles they go through.

Coordinator of Event: Ms. Shipra Srivasatava

Report

Department of **Information Technology** in association with **Institution Innovation Cell (IIC)** organized a “**Session on Girl hygiene & Education**” on 8th February, 2019 from 2:00 PM onwards.

“Education is the only key to empower girls.”

The Department of Information Technology organized a Session on Girl education and hygiene in JUNPAT village (village adopted by GNIOT) on 8/02/2019 from 02:00 pm onwards.

Objective of this drive was:

- To make everyone aware of the importance of girl education and the noteworthiness of empowering them.
- To make everyone aware about girl hygiene and sanitation which is very important considering the various cycles they go through.

The motive was to explain that an educated girl contributes in every field and is a fortune for her family and country. Educating a girl is not less than educating a whole family.

Hod, IT Dr. Manoj Singhal Sir shared his views regarding the Girl Education and Hygiene and inspired students to promote it at their best.

More than 50 students of 2nd and 3rd year of IT Department along with the faculty members and village authority embraced the event with their presence and spread the awareness among the local school childrens and villagers.

Many students performed and acted in the form of Nukkad Natak and the act was phenomenal.

Muskan form 3rd year with her end speech made us realise the necessity of girl education and their empowerment.

Moderator of the event was Ms. Shipra Srivasatava, she spread awareness about girl education and hygiene together. She explained that Cleanliness is vital because of the various cycles girls go through, including menstruation. Ms. Shipra told that poor hygiene can lead to the spread of bacteria in genitals, with unfortunate repercussions.

Other mentors, faculties, co-ordinators and students were present

The outcome of the Program

1. Make them to understand that an educated woman has a lot of knowledge about good health care and the ability to care for her children better.
2. Girls' education will make them more independent and financially strong and less dependent on their family or husband.
3. Girl Education will help them to understand the importance of hygiene.

Department of MCA

Blood Donation Camp (11th April, 2019)

“We cannot give God in return of this precious life, but we can Thank Him by helping others through blood donation”

Blood donation is a most important social service to the humankind. As being a human, we must donate blood to save others life. Through blood donation, we can help various needy people and save their precious life.

Department of MCA participated in Blood Donation camp organized by GNIOT GROUP OF INSTITUTIONS , GREATER NOIDA with “Indian Army, DhaulaKuan” Armed Forces Transfusion Center (AFTC) on 11th April, 2019. More than 150 students, faculty members & staffs were donated their blood in the camp. The doctors also highlighted the importance of blood donation and how we can help others by this blood donation. Students were so excited and displayed their enthusiasm towards the Blood Donation Camp by not only participating in the Blood Donation Camp but also encouraging their peers to contribute towards this noble cause. This event successfully executed in the presence of Honorable Chairman Dr. Rajesh Gupta, Honorable vice Chairman ShriGaurav Gupta and respected director Dr. Dhiraj Gupta with the help of entire GIPS team.

Outcome of the event:

Blood donation camps are organized with the purpose of supplying blood to the blood banks for the need of patients suffering from cancer, hemophilia, and thalassemia or accident victims.

ACTIVITY REPORT

Plantation Drive

23rd August 2019

Organized by

Mechanical Engineering Department

Date: 23rd August 2019

Location: Village Palla, Post Dadri, Greater Noida

Organizers: Mechanical Engineering Department, GNIOT, Gr. Noida

Objective: To promote greenery and raise awareness about the importance of environmental conservation in GNIOT.

Activities:

- Plantation of saplings in the GNIOT campus.
- Distribution of saplings to volunteers for plantation in their own locality.
- Presentation on the importance of environmental conservation and the benefits of greenery.
- Inspection of the plantation sites and monitoring of the growth of the saplings.

Participants:

- Students, faculty & staff members of the Mechanical Engineering Department.

Outcomes:

- A total of 65 saplings were planted in the GNIOT campus.
- Approximately 45 saplings were distributed to volunteers for plantation in their own locality.
- The initiative helped to create awareness among the local community about the importance of environmental conservation & its benefits.
- The plantation sites were inspected and the growth of the saplings was monitored.

Conclusion: The plantation drive event organized by the Mechanical Engineering Department, GNIOT, Gr. Noida was a great success. It not only helped to promote greenery and environmental conservation but also created awareness among the local community about the importance of preserving our environment. This event was successfully organized under the guidance of our Director Prof. (Dr.) Rajesh Goel, HOD ME Prof. (Dr.) Sudhir Kumar, and other faculty members. The activity was coordinated by Mr. Anuj Dixit.

PROGRAMME REPORT

Greater Noida Institute of Technology (GNIOT)

(An Initiative of Ministry of Education, Govt. of India)

Knowledge park-II, Greater Noida- 201308

www.gniot.net.in

EVENT TITLE:
“Plantation Drive”

PARTICIPANTS:

Third Year and Second Year IT Engineering Students & Faculty members.

OBJECTIVES:

With tree plantation drives we can contribute to **improve the forest cover & resources for all other living species to which these trees are a natural habitat.** Trees play an extremely important part in regulating the temperature and making the weather conditions conducive to rainfall.

REPORT:

A very auspicious tree plantation programme was organized by Department of Information Technology to create an awareness regarding climate change and its adverse effect on us. The program started at 10:00 AM. A range of 100 plants were planted in the garden and periphery of the college playground to create an awareness about saving trees. The program ended at 12:30 PM and we were all given snacks to eat. At 11:30 AM our honorable guest gave a speech on benefits of planting trees, how it helps cleaning the environment and uses of medicinal plants. We hope that everybody plants a tree in their lifetime and contribute in conserving the nature.

Few glimpse of event's are:

Name of Event: Gender equality Camp

Caption: Good Health is above Wealth

Date of Event: Saturday, 12th September, 2019

Venue: Junpat Village, Greater Noida

Organised by: Department of Civil Engineering

Event Description: The Department of Civil Engineering organized Gender equality program at Junpat Village, Greater Noida to empower the women of the village by advising them to maintain health standards for their well-being. The faculty of the department also distributed health and sanitation items to the women of the village. The camp consisted of various activities, including interactive sessions, group discussions, games, and cultural events. The following were some of the major activities conducted during the camp:

- **Gender Sensitization Workshop:** A workshop was conducted to sensitize the participants about the various gender issues prevalent in society. The workshop covered topics such as gender stereotypes, gender-based violence, and the importance of gender equality.
- **Group Discussions:** The participants were divided into groups to discuss various topics related to gender equality, such as the role of women in society, the gender pay gap, and the need for affirmative action.
- **Games:** Various games were organized to reinforce the message of gender equality. For example, a game was conducted to demonstrate how gender stereotypes affect the way we perceive different professions.
- **Cultural Events:** The participants also performed cultural events to showcase how gender equality can be promoted through art and culture.

Conclusion of the event:

The Gender Equality Camp was a huge success, with over 50 young people participating. The camp was able to create awareness about gender equality and empower young people to work towards achieving it. The participants were encouraged to take action in their own communities and to spread the message of gender equality. The camp also highlighted the need for continued efforts towards achieving gender equality and the role of young people in bringing about change.

Tree Plantation Drive

Date: 23/09/2019

Seeking the auspicious blessings of our chairman sir, Sh. Rajesh Gupta ji and supported by the constructive efforts of Dr. Pranveer Singh, Director General, GNIOT group of institutions and Dr. Dheeraj Gupta, Director, GNIOT, the Electrical Engineering (EE) Department, GNIOT successfully conducted a "Plantation Drive" at the Office of the honorable DM, Gautam Buddha Nagar on 23.09.2019. The "Plantation Drive" was made a huge success by the cordial cooperation of Sh. Dewakar Singh, ADM, Gautam Buddha Nagar. Driven by the charismatic mentorship of Dr. Nikhil Gupta, HOD, EE department, and all the students as well as faculty members of the EE department ecstatically participated in the drive.

Outcome:

1. The students participated in the tree plantation activity by which they learnt the importance of tree plantation.
2. They learnt about how trees help to clean environment, reduce global warming, and provide green cover to the planet earth.

Summary Report: Dengue Prevention Awareness

The Computer Science & Engineering Department successfully organized "Dengue Prevention Awareness" activity in the college campus on 28-09-2019. The students were made aware of the measures and practices to prevent the spread of Dengue.

The Dengue Prevention Awareness event took place on 28th Sep, 2019 at GNIOT, Gr. Noida Campus. Dr. Vishal Sharma, the speaker at the event, discussed the seriousness of dengue fever and the measures that can be taken to prevent its spread. He highlighted the symptoms of dengue fever, including high fever, severe headache, joint pain, and rash, and emphasized the importance of seeking medical attention immediately if any of these symptoms occur. Dr. Sharma also discussed how dengue fever can lead to severe complications, such as dengue haemorrhagic fever or dengue shock syndrome, which can be life-threatening. Therefore, prevention is crucial to avoid the spread of dengue fever.

He provided information on preventive measures such as eliminating breeding sites of mosquitoes by removing stagnant water around homes, using mosquito repellent, wearing protective clothing, and installing screens on windows and doors. He also stressed the importance of community involvement in dengue prevention efforts.

Dr. Vishal also discussed various aspects of dengue prevention, including how to identify and eliminate breeding sites for mosquitoes, the importance of using mosquito repellent and protective clothing, and the signs and symptoms of dengue fever. In addition to the presentations, the event included interactive activities and demonstrations that helped to reinforce the key messages about dengue prevention. The audience was engaged throughout the event, with

many attendees asking questions and sharing their own experiences with dengue fever. The speakers provided informative and helpful responses, and attendees left the event with a better understanding of how to prevent dengue fever. The impact of the event was significant, with many attendees reporting that they planned to take action to prevent the spread of dengue fever. Some attendees also indicated that they planned to share the information they learned at the event with their friends and family.

SYMPTOMS	ADVISES
<ul style="list-style-type: none"> » Fever, severe headache » Pain behind eyes » Muscle and joint pain » Nausea, vomiting, swollen glands » Unusual weakness, rash » Abdomen pain, cough, loose motion 	<ul style="list-style-type: none"> Immediate blood test on doctor's advice Rest and drink plenty of fluids Paracetamol can be taken to reduce joint pains, fever Aspirin or ibuprofen should not be taken

DENGUE FEVER PREVENTION TIPS

Eliminate Standing Water

Use Mosquito Repellents

Stay Indoors

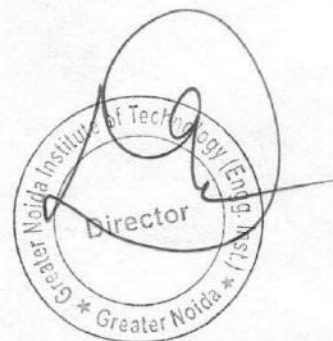

Wear Protective Clothing

Use Mosquito Nets

Overall, the Dengue Prevention Awareness event was a success, and it helped to raise awareness about the importance of dengue prevention. The organizers, sponsors, and volunteers who made the event possible should be commended for their efforts.

NOTICE

GNIOT/ME/2019/

Date: 26/09/2019

Subject: Anti-Dengue-Malaria measures

Mechanical Engineering Department is organizing an “Anti-Dengue-Malaria measures” activity on 30th September 2019. The objective of this event is for welfare of society.

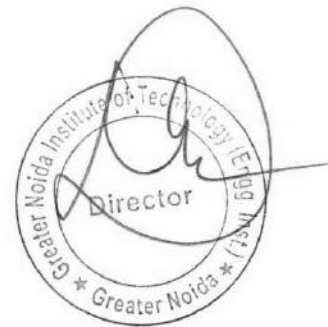

Venue: Village Rampur, Greater Noida

Date & Time: 30th September 2019 (Friday) at 11:00 AM

Event Coordinator: Mr. Grindra Bhati

Resources required: Transport facility to carry the students, faculty members (02) and related items

Dr. Sudhir Kumar
(HOD, ME)

ACTIVITY REPORT

ANTI-DENGUE-MALARIA MEASURES

30th September 2019

Organized by

Mechanical Engineering Department

Date: 30th September 2019

Location: Village Rampur, Greater Noida

Organizers: Mechanical Engineering Department

Objective: To promote awareness about dengue and malaria prevention and control measures in the college campus and nearby area.

Activities:

- Conducted a lecture on dengue and malaria prevention and control measures for students and staff members.
- Distributed pamphlets and brochures to students and staff members to create awareness.
- Inspected the college campus and nearby areas for mosquito breeding sites.
- Sprayed insecticides in areas where mosquito breeding sites were found.
- Cleaning of the college campus and surrounding areas to prevent the accumulation of stagnant water.

Participants:

- Students, faculty & staff members of the Mechanical Engineering Department.

Outcomes:

- Approximately 30 students and staff members attended the lecture on dengue and malaria prevention and control measures.
- Pamphlets and brochures were distributed to all the attendees.
- The inspection of the college campus and nearby areas helped to identify potential mosquito breeding sites.
- Spraying of insecticides helped to control the mosquito population.
- Cleaning of the college campus and surrounding areas helped to prevent the accumulation of stagnant water.

Conclusion: The "Anti-Dengue-Malaria Measures" activity organized by the Mechanical Engineering Department, GNIOT, Gr. Noida was a great success. It not only helped to promote awareness about dengue and malaria prevention and control measures but also helped to identify potential mosquito breeding sites and control the mosquito population in the college campus and nearby areas. This event was successfully organized under the guidance of our Director Prof. (Dr.) Rajesh Goel, HOD Mechanical Prof. (Dr.) Sudhir Kumar, Dy HOD Mr. Gagan Varshney, and other faculty members. The activity was coordinated by Mr. Grindra Bhati.

Dear Students,

You are hereby informed that as per the academic calendar, the department is going to organize the event on "International Day of the Girl Child" on 11th October 2019.

The students are requested to present in full strength and take the maximum benefit of the expert talk on the topic.

Director

HOD-IT

An event on

"International Day of the Girl Child"

**11 October 2019
(03:15 PM to 04:55PM)**

PROGRAMME REPORT

Organized by

**The Rising Corner Club
Greater Noida Institute of
Technology (GNIOT)
(An Initiative of Ministry of Education, Govt. of India)
Knowledge park-II, Greater Noida– 201308
www.gniot.net.in**

EVENT TITLE:

International Day of the Girl Child "Girl Force: Unscripted and Unstoppable".

PARTICIPANTS:

All IT Engineering Students & Faculty members.

OBJECTIVES:

- It is a day dedicated to celebrating girls, amplify their voice and stand up for their rights.
- To reflect the successful emergence of girls in different fields.
- To promote education, nutrition, legal rights and medical care for girls.

Speaker of the Event: Dr. Madhu Vats**Profile of the Speaker**

- The speaker of this event was Head of Dept. of Botany, Ma Amba Degree College Baghat, Meerut.
- She has done exemplary work towards environmental equilibrium, nature conservation, women empowerment and sustainable development.

"When women participate in the economy, everyone benefits."

IT Department has organized an event on International Day of the Girl Child on 11th October 2019. The main aim of this event is to highlight and address the needs and challenges girl's face, while promoting girls' empowerment and the fulfillment of their human rights.

The event was hosted by Ms. Mansi Gupta, student of IT 2nd year who highlighted the motive of the event and welcomed the Guest Speaker and thanked the speaker for sparing her valuable time to enrich the students. She spoke about the different themes of International Day of the Girl Child and what is the importance of International Day of the Girl Child.

Varsha Kumari and Neha Tyagi from IT 3rd Year also presented their views highlighting the importance of the day. The session was attended by more than 65 students and all faculty members of IT. The session was very interactive and knowledgeable.

Outcome of the Program

1. We should work together to ensure that girls are connected, supported and empowered.
2. We all should ensure women's full and effective participation and equal opportunities for leadership at all levels of decision making in political, economic and public life.
3. We should enhance the use of enabling technology, in particular information and communications technology, to promote the empowerment of women.

REPORT

DENGUE-MALARIA AWARENESS PROGRAM

Organizing

On

21th October 2019

Organized by

Electronics and Communication Engineering Department

**Report on Dengue-Malaria Awareness Program Conducted by the
department of Electronics and Communication Engineering in Begampur
Village: "Stop Mosquitoes stop Dengue and Malaria"**

The Electronics and Communication (ECE) Department conducted a Dengue-Malaria Awareness Program on 21st October 2019 in Begampur Village, with the aim of creating awareness about the prevention and control of Dengue and Malaria, two prevalent mosquito-borne diseases in the region. The tagline for the program was "Stop Mosquitoes, Stop Dengue and Malaria," which emphasized the importance of mosquito control in preventing the spread of these diseases.

The program started with an informative session with insights about the causes, symptoms, and preventive measures of Dengue and Malaria. He emphasized the importance of maintaining cleanliness and adopting preventive measures to control mosquito breeding and bite prevention, including the use of mosquito nets and repellents, and the elimination of stagnant water.

After the presentation, the participants, including students, faculty members, and staff from the ECE Department, engaged in interactive discussions and practical demonstrations related to Dengue and Malaria prevention. This included demonstrations on the correct usage of mosquito nets, the importance of maintaining clean surroundings to prevent mosquito breeding, and the proper disposal of waste to avoid mosquito breeding sites.

During the program, participants expressed their thoughts on the significance of Dengue and Malaria prevention in their community. Here are some quotes from notable individuals:

1. Mr. Ankit Jayant, a faculty member from the ECE Department, shared, "Preventing Dengue and Malaria is a collective effort that requires the participation of the entire community. It is important to educate ourselves and others about the importance of mosquito control measures, and take necessary steps to prevent mosquito breeding in our surroundings."
2. Mr. Rahul Roy, a student from the ECE Department, said, "Dengue and Malaria are serious diseases that can have severe consequences on our health and well-being. It is crucial to raise awareness about mosquito control measures and adopt preventive practices to protect ourselves and our communities from these diseases."

The program concluded with a pledge by all the participants to actively participate in Dengue and Malaria prevention efforts and spread awareness about the importance of mosquito

control in their communities. The event received positive feedback from the villagers of Begampur, who appreciated the efforts of the ECE Department in raising awareness about Dengue and Malaria prevention and control.

Summary Report of Plantation Drive in GNIOT Campus

The Computer Science & Engineering Department successfully organized a "Plantation Drive" in the college campus on 25-10-2019. The students planted tree saplings and realized the impact of green trees on our ecosystem and general wellbeing. Here is a summary report of the Plantation Drive event on 25-10-2019:

The Plantation Drive event was held on 25-10-2019 with the aim of planting trees and creating awareness about the importance of preserving the environment. The event was organized by GNIOT, Greater Noida, and was attended by several volunteers, including students, community members, and environmental enthusiasts.

The event began with a brief introduction by the faculty members, students, and organizers, who explained the importance of planting trees and the impact that deforestation has on the environment. They also provided some information about the types of trees that would be planted and their benefits.

After the introduction, the volunteers began planting the trees in designated areas. They worked in groups, with some volunteers digging holes, others

placing the trees in the holes, and others covering the roots with soil. The volunteers worked tirelessly for several hours, and by the end of the event, over numbers of trees had been planted.

During the event, there were also several educational activities for attendees. These included information about the benefits of trees and the importance of preserving the environment. There were also several interactive games and quizzes to help educate attendees about the importance of trees and the impact of deforestation.

The Plantation Drive event was a great success, with many attendees expressing their appreciation for the opportunity to contribute to the environment. The organizers should be commended for their efforts in organizing such an important event.

NOTICE

GNIOT/ME/2019/

Date: 04/11/2019

Subject: Waste Management

Mechanical Engineering Department is organizing a **“Waste Management”** activity on 8th November 2019. The objective of this event is for welfare of society.

Venue: GNIOT and nearby area, Greater Noida

Date & Time: 8th November 2019 (Friday) at 01:00 PM

Event Coordinator: Mr. S. Q. Hussain

Dr. Sudhir Kumar
(HOD-ME)

ACTIVITY REPORT

Waste Management

08th November 2019

Organized by

Mechanical Engineering Department

Date: 08th November 2019 (Friday) at 10:00 AM

Location: GNIOT and nearby area, Greater Noida

Organizers: Mechanical Engineering Department

Objective: To promote proper waste management practices and cleanliness in GNIOT.

Activities:

- Cleaning of the GNIOT campus.
- Segregation of waste into recyclable and non-recyclable materials..
- Awareness campaign on the importance of waste management and cleanliness.

Participants:

- Students, faculty & staff members of the Mechanical Engineering Department.

Outcomes:

- A total of 30 volunteers participated in the activity.
- Approximately 55 kg of waste was collected and disposed of properly.
- The GNIOT campus was left clean and hygienic.
- The initiative helped to create awareness among the local community about the importance of proper waste management and cleanliness.

Conclusion: The Waste Management activity organized by the Mechanical Engineering Department, GNIOT Gr. Noida was a great success. It not only helped to promote proper waste management and cleanliness but also created awareness among the local community about the importance of keeping our surroundings clean. We hope that such initiatives will continue in the future, and more people will join us in our efforts to promote a clean and hygienic environment. This event was successfully organized under the guidance of our Director Prof. (Dr.) Rajesh Goel, HOD Mechanical Prof. (Dr.) Sudhir Kumar, and other faculty members. The activity was coordinated by Mr. S. Q. Husain.

National Cancer Awareness Day

Date: 07.11.2019

The Electrical Engineering (EE) Department conducted a webinar to observe the National Cancer Awareness Day. This day is observed annually to highlight the significance and promote awareness about the diagnosis, treatment, and early detection of the cancer disease. According to the World Health Organization, cancer is one of the leading causes of death worldwide. In India, nearly 1.1 million new cases of cancer are reported annually.

Dr. Gaurav Mishra, MBBS, MS (Orthopedic), AIIMS, New Delhi was the key speaker of the webinar. Dr. Mishra shared his valuable thoughts about the severity of the disease and its various causes. Students of EE 2nd and 3rd years and all the faculty members attended the webinar. Mr. Aneep Kumar, Asst. Prof., EE dept. was the moderator of the webinar.

Outcome:

Students learnt about the following:

1. Significance of cancer awareness day
2. Promotion of diagnosis, detection, and treatment of cancer in early stage

Report on an event "Swachh Bharat"

The Computer Science & Engineering Department successfully organized "Swachh Bharat" activity in the college campus on 30-11-2019. The students were made aware to observe habits of cleanliness in and around their college and residences.

The "Swachh Bharat" activity was held on 30-11-2019 in the college campus with the aim of promoting cleanliness and hygiene among students and staff members. The event was organized by GNIOT, Greater Noida and was attended by several volunteers, including students, faculty members, and support staff.

The event began with a brief introduction by the organizers, who explained the importance of cleanliness and hygiene and the impact it has on the environment and overall health. They also provided some information about the activities that would be conducted during the event.

After the introduction, the volunteers began cleaning the college campus. They worked in groups, with some volunteers picking up litter, others sweeping the floors, and others cleaning the washrooms and other areas of the campus. The volunteers worked tirelessly for several hours, and by the end of the event, the entire campus had been cleaned.

During the event, there were also several educational activities for attendees. These included information about the benefits of cleanliness and hygiene and the importance of proper waste disposal. There were also several interactive games and quizzes to help educate attendees about the importance of cleanliness and hygiene.

एक कदम स्वच्छता की ओर

The "Swachh Bharat" activity was a great success, with many attendees expressing their appreciation for the opportunity to contribute to the cleanliness of the college campus. The organizers should be commended for their efforts in organizing such an important event.

Electronics and Communication Engineering Department

Report on Female Foeticide Awareness Program Conducted by the Department of Electronics and Communication Engineering in Achheja Village: "Let Me See the World"

On November 29, 2019, the Department of Electronics and Communication Engineering (ECE) held a Female Foeticide Awareness Programme in Achheja Village, with the goal of raising awareness about the destructive practise of female foeticide and advocating for the significance of gender equality. The program's motto was "Let Me See the World," emphasising every female child's right to be born and have the ability to explore and experience the world.

The programme began with a sensitization session presented with the insights regarding the social, cultural, and health ramifications of female foeticide. She emphasised the significance of recognising and respecting girls, as well as the necessity to combat gender discrimination in society.

Following the lecture, participants from the ECE Department, including students, teachers, and staff, participated in discussions and interactive activities on female foeticide. This includes group discussions, role-plays, and case studies to emphasise the harmful effects of female foeticide on society as well as the need to shift mindsets and attitudes towards gender equality.

Throughout the programme, participants shared their views and feelings on female foeticide and gender discrimination. Here are some famous people's quotes:

1. Ms. Shipra Gupta, an ECE Department faculty member, said, "Female foeticide is a regressive practise that not only violates the rights of the girl child but also has long-term negative consequences for society." It is our job to educate ourselves and others about the significance of gender equality and to try to eradicate this damaging practise."
2. Ms. Sonika Saini, an ECE Department faculty member, said, "Every girl child deserves the right to be born and to have equal opportunities in life." Female foeticide is a horrific crime, and we must raise awareness about it while advocating for gender equality in our society."
3. According to Ms. Shradha Singh, student of ECE Department, "every girl has the right to live, thrive, and contribute to society." Female genital mutilation is a societal scourge that must be abolished via education, awareness, and campaigning. We must collaborate to build a more inclusive and gender-equal society."

All participants pledged to actively promote gender equality, lobby against female foeticide, and empower the girl child in their communities at the conclusion of the programme. The programme was well welcomed by the inhabitants of Achheja, who praised the ECE Department's efforts to raise awareness about female foeticide and promote gender equality.

In conclusion, the Female Foeticide Awareness Program conducted by the Department of Electronics and Communication Engineering in Achheja Village on 29th November 2019

aimed to spread awareness about the harmful practice of female foeticide, with the tagline "Let Me See the World." The event highlighted the importance of valuing and respecting the girl child, and the active participation of the ECE Department in promoting gender equality and advocating against female foeticide showcased their commitment towards creating a more inclusive and equal society.

Electronics and Communication Engineering Department

Report on Waste Management Conducted by Electronics and Communication Department in Baidpura Village: "Reuse, Recycle & Reduce the Waste for the Better Future"

The Electronics and Communication (ECE) Department conducted a waste management program on 1st November 2019 in Baidpura Village, with the objective of creating awareness about the importance of waste management and promoting sustainable practices for a better future. The program was centered around the quote, "Reuse, Recycle & Reduce the Waste for the Better Future," emphasizing the need to adopt eco-friendly waste management practices.

The event commenced with a presentation on valuable insights of waste management, including the concepts of reduce, reuse, and recycle. She highlighted the adverse impacts of improper waste disposal on the environment and the need to adopt sustainable waste management practices to protect our planet.

Following the presentation, the participants, including students, faculty members, and staff from the ECE Department, engaged in interactive sessions and practical demonstrations related to waste management. This included discussions on the importance of segregating waste at source, composting organic waste, recycling paper, plastic, and glass, and reducing the use of single-use plastics.

During the program, participants expressed their thoughts on the significance of waste management in their daily lives. Here are some quotes from notable individuals:

1. Mr. Satendra Sharma, a faculty member from the ECE Department, shared, "Proper waste management is crucial to tackle the growing problem of waste pollution. It is essential to educate ourselves and others about the need to adopt sustainable waste management practices to protect our environment."
2. Ms. Shreyanshi Sekhar, a student from the ECE Department, said, "Waste management is not just the responsibility of the authorities, but also our individual responsibility. By reducing, reusing, and recycling our waste, we can contribute towards a better and cleaner environment for our future generations."
3. Another students Mr. Rajesh Kumar "Waste management is not just about disposing of waste, but also about reducing the waste we generate in the first place. It is important to adopt a holistic approach towards waste management, which includes reducing, reusing, and recycling the waste for a better future."

The program concluded with a pledge by all the participants to incorporate sustainable waste management practices in their daily lives and spread awareness about the importance of waste

reduction, reuse, and recycling in their communities. The event received positive feedback from the villagers of Baidpura, who appreciated the efforts of the ECE Department in promoting waste management awareness and education.

Report on Hygiene maintenance

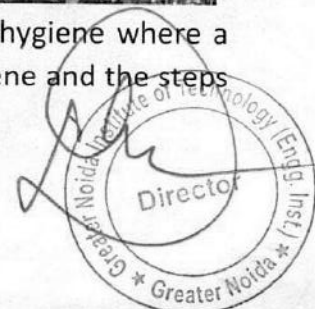

The Computer Science & Engineering Department successfully organized a "Hygiene Maintenance" activity in the college campus on 20-12-2019. The students got to learn general hygienic practices in their day to day lives, and observe such practices around themselves.

The "Hygiene Maintenance" activity was organized in the college campus on 20-12-2019 with the aim of promoting cleanliness and hygiene among the students and staff. The event was organized by the college administration and was attended by several students and staff members.

The event started with a cleanliness drive where participants were divided into groups and assigned different areas of the campus to clean. The groups were provided with cleaning equipment and were given instructions on how to clean the designated areas properly.

After the cleanliness drive, there was a session on personal hygiene where a guest speaker gave a talk on the importance of personal hygiene and the steps

that individuals can take to maintain good hygiene. The speaker also talked about the impact of poor hygiene on health and the measures that can be taken to prevent the spread of diseases.

There was also a demonstration on proper hand-washing techniques, where participants were shown the correct way to wash their hands to prevent the spread of germs and bacteria. During the event, there were several interactive activities and games related to hygiene and cleanliness. The participants were encouraged to share their ideas and experiences related to hygiene and cleanliness.

Overall, the "Hygiene Maintenance" activity was a great success, with many participants expressing their appreciation for the opportunity to learn about the importance of hygiene and cleanliness. The event helped to promote awareness about the importance of maintaining cleanliness and hygiene, and it is hoped that the participants will continue to practice good hygiene habits even after the event is over.

TALK ON VERMICOMPOSTING PITS IN JUNPAT VILLAGE

Vermicomposting for the biodegradable waste produced at vicinity of Junpat village. The villagers were being educated towards the benefit of vermicomposting and to design the vermicomposting pits to ensure proper utilisation of the energy obtained while decomposing the organic and biodegradable, which can be installed at various village site in Greater Noida. Vermicomposting helps to meet the nutrients required for plants and flower at the garden. The vermicomposting helps to all the biodegradable waste is properly disposed, as well as to provide low cost manure for crop cultivation.

Figure: Crop yield survey by Mr. Neshar in crop grown using vermicomposting.

GREATER NOIDA INSTITUTE OF TECHNOLOGY (Engg. Institute)

The organic content of Municipal Solid Waste (MSW) tends to decompose leading to various smell and odour problems. It also leads to pollution of the environment. To ensure a safe disposal of the MSW it is desirable to reduce its pollution potential and several processing methods are proposed for this purpose.

Composting process is quite commonly used and results in production of a stable product - compost which depending upon its quality can be used as a low-grade manure and soil

GNIOT
GREATER NOIDA INSTITUTE OF TECHNOLOGY

ग्रेटर नोएडा इंस्टीट्यूट ऑफ टेक्नोलॉजी (इंजीनियरिंग इंस्टीट्यूट)
GREATER NOIDA INSTITUTE OF TECHNOLOGY (Engg. Institute)

conditioner. The process results in conservation of natural resources and is an important processing method, especially in agricultural and horticultural areas.

Decomposition and stabilisation of organic waste matter is a natural phenomenon. Composting is an organised method of producing compost manure by adopting this natural phenomenon. Compost is particularly useful as an organic manure which contains plant nutrients (Nitrogen, Phosphorous and Potassium) as well as micro nutrients which can be utilized for the growth of plants. When used in conjunction with chemical fertilisers optimum results are

obtained.

Composting can be carried out in two ways i.e., aerobically and anaerobically. During aerobic composting aerobic micro-organisms oxidise organic compounds to Carbon di oxide, Nitrite and Nitrate. Carbon from organic compounds is used as a source of energy while nitrogen is recycled. Due to exothermic reaction, temperature of the mass rises. During anaerobic process, the anaerobic microorganisms, while metabolising the nutrients, break down the organic compounds through a process of reduction. A very small amount of energy is released during the process and the temperature of composting mass does not rise much. The gases evolved are mainly Methane and Carbon di oxide.

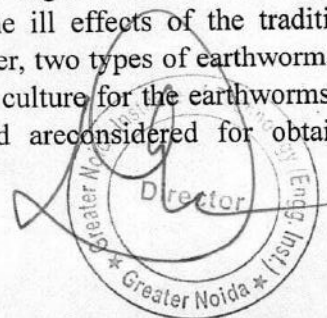

An anaerobic process is a reduction process and the final product is subjected to some minor oxidation when applied to land.

Approach to vermicomposting

Selection of Site: -The site should be flat and should not be liable to flooding. It should be readily approachable but slightly away from a main road to avoid any nuisance to the traffic in the event of the plant not operating properly. The approach road should be sufficiently wide so that the traffic is not obstructed in the event of breakdown of incoming Municipal Solid Waste trucks. The areas where compost is to be supplied should be near the site and should be easily accessible. A site for disposal of non-compostable should be available near the compost plant site.

Trees planted along the periphery of the site will serve partly as a barrier against the noise and odour from the plant and also help in litter control by reducing the wind speed. The trees will also protect the plant from dust and pollutants due to the highway

Over the period of time the problem of disposal of solid waste is increasing with the urbanisation and industrialization. Many methods are derived to treat organic solid waste but the most effective method is vermicomposting. Traditional methods like thermal treatments and landfilling methods provide instant result but it creates adverse effects on surrounding environment. Vermicomposting is an efficient way where organic waste is decomposed naturally by using earthworms. This method overcomes the ill effects of the traditional methods and also it is widely practiced these days. In this paper, two types of earthworms are used to treat the waste along with whey powder which acts a culture for the earthworms and various parameters affecting the vermicomposting method are considered for obtaining maximum efficiency.

In biological waste treatment, composting and anaerobic digestion are two main methods. Composting is the decomposition of organic matter by the action of micro-organisms. Composting techniques are vessel composting, windrow composting, vermicomposting and static pile composting. Anaerobic digestion is the process in which decomposition of organic waste in the absence of oxygen.

FACTORS AFFECTING VERMICOMPOSTING

1. Carbon-to-Nitrogen Ratios: Carbon can be considered the food and nitrogen the digestive enzymes.
2. pH: pH is required for earthworms to survive. It is unsuitable for worms if it is too acidic or too alkaline. pH value should be between 6.0 and 8.0.
3. Moisture: Microorganisms require aeration for survival and proper functioning and so the compost pile should have a moisture content of 40-60 percent.

Summary of the event:

- Organic farming is promoted
- Health lifestyle with no pollution
- Minimizes soil and water pollution

Blood Donation Camp (6th Jan, 2020)

"It is not possible to buy someone's life with money, but you can save someone's life by donating blood to him"

A blood service that provides patients with safe blood in sufficient quantity is a crucial component of an effective health system. Every year, the global theme of World Blood Donor Day changes to honor the selfless individuals who donate their blood to people they don't even know.

Department of MCA participated in blood donation camp organized by GNIOT GRUOU OF INSTITUTIONS, GREATER NOIDA association with AIIMS, New Delhi and GIMS, Greater Noida and. There were more than 200 units of blood mobilized during the camp by different courses. The fitness of donors for donation was checked by the team of competent doctors and under arrangements for safe and hygienic blood donation. This event successfully executed in the presence of Honorable Chairman Dr. Rajesh Gupta, Honorable vice Chairman ShriGaurav Gupta and respected director Dr. Dhiraj Gupta.

Outcome of the Event:

Blood donation camps are organized with the purpose of supplying blood to the blood banks for the need of patients suffering from cancer, hemophilia, and thalassemia or accident victims.

EVENT TITLE:

“Plantation Drive”

PARTICIPANTS:

Third Year and Second Year IT Engineering Students & Faculty members.

OBJECTIVES:

- To plant trees as Tree Plantation drives combat many environmental issues like deforestation, erosion of soil, desertification in semi-arid areas, global warming and hence enhancing the beauty and balance of the environment.
- Trees absorb harmful gases and emit oxygen resulting in an increase in oxygen supply.

Coordinator of the Event: Ms. Uma Tomar

REPORT:

“Plant a tree and see it grow; so you can enjoy the cool breeze flow.”

The Department of Information Technology was fortunate to get an opportunity to celebrate the Plantation Drive and spread awareness regarding the tree plantation in village “Rampur Khadar” (village adopted by GNIOT) on 09/01/2020.

Objective of this drive was:

- To plant trees as Tree Plantation drives combat many environmental issues like deforestation, erosion of soil, desertification in semi-arid areas, global warming and hence enhancing the beauty and balance of the environment.
- Trees absorb harmful gases and emit oxygen resulting in an increase in oxygen supply.

Moderator of the event was Ms. Uma Tomar.

Other mentors, faculties, co-ordinators and students were present.

“That’s the way I do things when I want to celebrate, I always plant a tree. - Wangari Maathai”

The planting of a tree is a modest form of immortality and one of the few truly long-term expressions of hope to mortal human beings.

Few glimpse of event's are:

The session was very fruitful and interactive.

The outcome of the Program

1. The purpose of making people aware of the importance of planting trees and to assist them in doing so.
2. Planting saplings to invest in the future on tree plantation day.

Event Description: Ms. Moumita Sit, who is currently pursuing her post doctorate in the field of Structural Engineering from University of Portsmouth, England, visited GNIOT on her visit to India and gave a lecture on the "Design of Android Application for Curing and Irrigation".

Irrigation." The lecture aimed to introduce the audience to the importance of technology in agriculture and the design of an Android application for curing and irrigation.

Ms. Sit started the lecture by discussing the current challenges faced by farmers in curing and irrigation. She highlighted that farmers often face difficulty in deciding the appropriate time for curing and irrigation, and the lack of proper guidance results in significant crop loss.

To address this issue, Ms. Sit discussed the design of an Android application for curing and irrigation. The application is designed to provide farmers with real-time information about the appropriate time for curing and irrigation based on the soil moisture content and weather conditions. It also provides information about the best curing and irrigation practices, and the different types of crops suitable for each method.

Ms. Sit emphasized that the application is user-friendly and easy to use. It is designed to work on low-end smartphones, and it has a simple interface that allows farmers to access information easily. The application also allows farmers to upload photos of their crops, which can help in identifying diseases and pests.

Ms. Sit also discussed the various features of the application, including push notifications for reminders and alerts, data analytics for tracking crop health and growth, and a community forum where farmers can interact with each other and share their experiences.

In conclusion, Ms. Sit's lecture provided valuable insights into the importance of technology in agriculture and the design of an Android application for curing and irrigation. The lecture was informative and engaging, and it was well-received by the audience. The application has the potential to revolutionize the way farmers approach curing and irrigation, and it can help in reducing crop loss and improving crop yield.

Department of MCA

PLANTAION DRIVE (2020)

“Trees exhale for us so that we can inhale them to stay alive. Can we ever forget that? Let us love trees with every breath we take until we perish.”

Trees are the most benevolent givers in nature. They play an extremely important role in giving life and sustaining it, as a whole, as well as maintaining a balance in the eco-system. This makes it crucial for us to understand how significant trees are to our life on earth and what we can do to counter the problem of their depleting numbers and all the additional challenges that come with it.

The Department of MCA has been organized the Tree Plantation Drive on 28thFeb 2020 at GNIOT GROUP OF INSTITUTIONS campus. Considering the concept of **“Plant a tree today for a better tomorrow”**, the drive has been executed in presence of respected director Dr. Dhiraj Gupta, Faculty members, Staffs and Students of MCA 1st Year and 2nd Year.

Outcome of the Event:

Participants were highly energetic to make the event a big success. A spirit of teamwork, exchange of ideas and enthusiasm of the participants especially among the students could be seen. The students and teachers planted saplings and fenced them and watered the plants

ACTIVITY REPORT

NAME OF EVENT:- "GROUP DISCUSSION" ON THE TOPIC " IMPACT OF COVID-19 PANDEMIC ON DAILY LIFE"

Date & Time of Event:- 27.02.2020 from 11:00 AM - 01:00 PM.

The Department of information technology (Greater noida institute of technology)has successfully conducted a session of "group discussion" on the topic " IMPACT OF COVID-19 PANDEMIC ON DAILY LIFE" for the third year students under the supervision of our Director Prof. Dr.Dhiraj Gupta, Head of Department prof. Dr. Ramveer Singh ,our guests supremely talented judges Mr.Sarvendra Singh and Mr. Nikhil Singh and faculty Coordinators and the cornerstone, the participants of this event. The impact that covid laid on our lives was discussed by our students ,the pros and cons that were noticed by them was also being discussed. The session was quite interacting and the students have grasped the basics of group discussion. This Event gave the students glimpse of the needs for interviews.

OUTCOME OF THE EVENT

- To make people more sensitive and aware about their along with better services on eye care and treatment along with other facilities.
- Better health status in the community;
- Social awareness on social stigmas and the misconceptions:
- Positive impact on the family of health atmosphere;
- Beneficiaries will become health conscious as they will increase health seeking behavior.
- To implement child-to-child health education and hygiene programs that will improve knowledge and behaviors related to household practices and home hygiene through people-based-media and promoted by the mass media:
- To maximize the health care service available for children in the community:
- To improve the medical services unavailable for disabled children

“HEALTH AWARENESS”

On

The Yoga

(2nd March 2020)

Organized by

Department of MCA

HEALTH AWARENESS

“Yoga: A way of making you mentally, spiritually and physically sound”

Yoga is a discipline and meditation which needs to be practiced physically, mentally, and spiritually. It was originated in the ancient India however being practiced all over the world in many countries. Now-a-days, broad variety of Yoga is practiced by the students in many schools and colleges. It is the most important means of meditation for the people in Hinduism, Buddhism, Jainism and other religions.

With this thought **MCA department** participated in Yoga Session organized by **GNIOT GROUP OF INSTITUTIONS** for Faculties, Staffs and Students. We at GNIOT GROUP OF INSTITUTIONS believe that yoga is the incorporation of meditation and breathing can help improve a person's mental well-being. With this aim in mind, the event took place at GNIOT GROUP OF INSTITUTIONS play ground on 2nd March 2020.

Outcome of the Event:

Participants at the program were encouraged to incorporate healthy habits and also take various preventive measures so that in the upcoming times they can stay safe and sound. In addition, people present there are also spurred to boost up their daily nutrition intake. They are also given information on how to integrate and maintain hygiene in their lifestyle. This program is focused towards addressing issues of personal health care, vaccination, hygiene, and illness prevention

NOTICE

GNIOT/ME/2020/

Date: 10/08/2020

Subject: Plantation Drive

Mechanical Engineering Department is organizing a “**Plantation Drive**” event in GNIOT and nearby location on 14th August 2020. The objective of this event is for welfare of society.

Venue: GNIOT and nearby location, Greater Noida

Date & Time: 14th August 2020 (Friday) at 11:00 AM

Event Coordinator: Mr. G. S. Bhati

Dr. M. P.
(HOD, ME)

ACTIVITY REPORT

Plantation Drive

14th August 2020

Organized by

Mechanical Engineering Department

Date: 14th August 2020

Location: GNIOT and nearby locations

Organizers: Mechanical Engineering Department, GNIOT, Gr. Noida

Objective: To promote greenery and raise awareness about the importance of environmental conservation in GNIOT.

Activities:

- Plantation of saplings in the GNIOT campus.
- Distribution of saplings to volunteers for plantation in their own locality.
- Presentation on the importance of environmental conservation and the benefits of greenery.
- Inspection of the plantation sites and monitoring of the growth of the saplings.

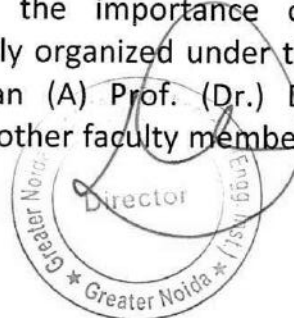

Participants:

- Students, faculty & staff members of the Mechanical Engineering Department.

Outcomes:

- A total of 65 saplings were planted in the GNIOT campus.
- Approximately 50 saplings were distributed to volunteers for plantation in their own locality.
- The initiative helped to create awareness among the local community about the importance of environmental conservation & its benefits.
- The plantation sites were inspected and the growth of the saplings was monitored.

Conclusion: The plantation drive event organized by the Mechanical Engineering Department, GNIOT, Gr. Noida was a great success. It not only helped to promote greenery and environmental conservation but also created awareness among the local community about the importance of preserving our environment. This event was successfully organized under the guidance of our Director Prof. (Dr.) Rajesh Goel, Dean (A) Prof. (Dr.) Dhiraj Gupta HOD Mechanical Prof. (Dr.) M. S. Rawat, and other faculty members. The activity was coordinated by Mr. G. S. Bhati.

Dr. Anuranjan Mishra, in association with the Department of Civil Engineering, has distributed hand sanitizers to the residents of Rampur Bangar village in Greater Noida. The initiative was aimed at promoting awareness about hygiene and preventing the spread of COVID-19.

Distribution Drive:

The distribution drive was carried out in a systematic and organized manner. The team distributed hand sanitizers to the residents of Rampur Bangar village, keeping in mind all the necessary precautions and guidelines related to COVID-19. The team ensured that social distancing norms were maintained during the distribution drive. They also made sure that everyone wore masks and sanitized their hands before receiving the sanitizer.

Impact:

The distribution drive had a positive impact on the community. The residents were happy to receive the sanitizers and appreciated the efforts made by Dr. Anuranjan Mishra and the Department of Civil Engineering. The initiative helped in spreading awareness about the

ग्रेटर नोएडा इंस्टीट्यूट ऑफ टेक्नोलॉजी (इंजीनियरिंग इंस्टीट्यूट)
GREATER NOIDA INSTITUTE OF TECHNOLOGY (Engg. Institute)

importance of hygiene and sanitation in the community. The distribution drive also helped in promoting the use of hand sanitizers as a preventive measure against COVID-19.

Conclusion & Summary of the event:

The initiative taken by Dr. Anuranjan Mishra and the Department of Civil Engineering in distributing hand sanitizers to the residents of Rampur Bangar village was a commendable effort. It helped in promoting awareness about hygiene and sanitation in the community. Such initiatives are necessary to combat the spread of COVID-19 and ensure the well-being of the community.

DEPARTMENT OF CIVIL ENGINEERING

IS ORGANISING

HOLISTIC DEVELOPMENT OF STUDENTS DURING COVID-19

29 SEPT 2020

PLOT NO-7, KP-II, GREATER NOIDA

The COVID-19 pandemic has brought about significant challenges to students pursuing their education in Civil Engineering. However, despite the difficulties posed by the pandemic, several opportunities for holistic development have emerged. Here are some ways in which Civil Engineering students can develop holistically during the pandemic:

Virtual learning: With the advent of online education, students can now attend virtual classes and participate in webinars and online workshops. This mode of learning provides opportunities for students to enhance their technical knowledge and stay updated with the latest trends in the field of Civil Engineering.

Self-paced learning: Students can utilize their free time to engage in self-paced learning by taking online courses and participating in online competitions. This will not only help in developing their technical skills but also improve their time management and organizational skills.

Research and development: The pandemic has created an opportunity for students to engage in research and development in Civil Engineering. With the increase in demand for sustainable and eco-friendly solutions, students can utilize their skills and knowledge to develop innovative and cost-effective solutions for the industry.

Entrepreneurship: The pandemic has also provided students with an opportunity to engage in entrepreneurship. With the rise in demand for startups in the field of Civil Engineering, students can utilize their knowledge and skills to develop innovative solutions and establish their own companies.

Soft skills development: Students can utilize their free time to develop their soft skills, such as communication, teamwork, and leadership, through online training programs, webinars, and workshops. These skills will not only enhance their employability but also improve their overall personality development.

(HOD-CE)**Conclusion of event:**

In conclusion, while the pandemic has presented several challenges to Civil Engineering students, it has also provided opportunities for holistic development. By taking advantage of these opportunities, students can enhance their technical knowledge, develop their soft skills, and prepare themselves for the post-pandemic world.

“TAKE CARE OF YOUR BODY. IT'S THE ONLY PLACE
YOU HAVE TO LIVE”

9th October 2020

Organized by

Electronics and Communication Engineering Department

Report on "Hygiene Maintenance" Conducted by Electronics and Communication Department in Kondlu Village: "Take care of your body. It's the only place you have to live."

The Electronics and Communication (ECE) Department organized a hygiene maintenance program on 9th October 2020 in Kondlu Village, with the aim of creating awareness about the importance of personal hygiene and sanitation practices for a healthy lifestyle. The program focused on the quote, "Take care of your body. It's the only place you have to live," highlighting the significance of maintaining good hygiene for overall well-being.

The event started with a presentation on various aspects of personal hygiene, including hand hygiene, oral hygiene, cleanliness, and sanitation. She emphasized the importance of maintaining good hygiene practices in our daily lives to prevent the spread of diseases and promote a healthy lifestyle.

Following the presentation, the participants, which included faculty members, students, and staff from the ECE Department, engaged in various interactive sessions and practical demonstrations related to hygiene maintenance. These included proper handwashing techniques, oral hygiene practices, proper waste disposal methods, and the importance of clean surroundings.

During the program, several participants shared their thoughts on the importance of hygiene maintenance in their lives. Here are some quotes from notable individuals:

1. Ms. Sonika Saini, a faculty member from the ECE Department, shared, "Personal hygiene is crucial in preventing the spread of infectious diseases, especially in times like these when hygiene has become even more important. It is our duty to educate ourselves and others about the significance of maintaining good hygiene practices."
2. Ms. Nandita Rai, a student from the ECE Department, said, "Good hygiene practices are essential for our physical and mental well-being. It is our responsibility to take care of our body and maintain proper hygiene to stay healthy and prevent the spread of diseases."
3. Mr. Harsh Deol, a student from the ECE Department, stated, "Hygiene maintenance is not just about personal cleanliness, but also about keeping our surroundings clean and promoting sanitation practices. It is important to create awareness and take actions to ensure a clean and healthy environment for ourselves and our community."

The program concluded with a pledge by all the participants to incorporate good hygiene

practices in their daily lives and spread awareness about the importance of hygiene maintenance in their communities. The event received positive feedback from the villagers of Kondlu, who appreciated the efforts of the ECE Department in promoting hygiene awareness and education.

World Sight Day

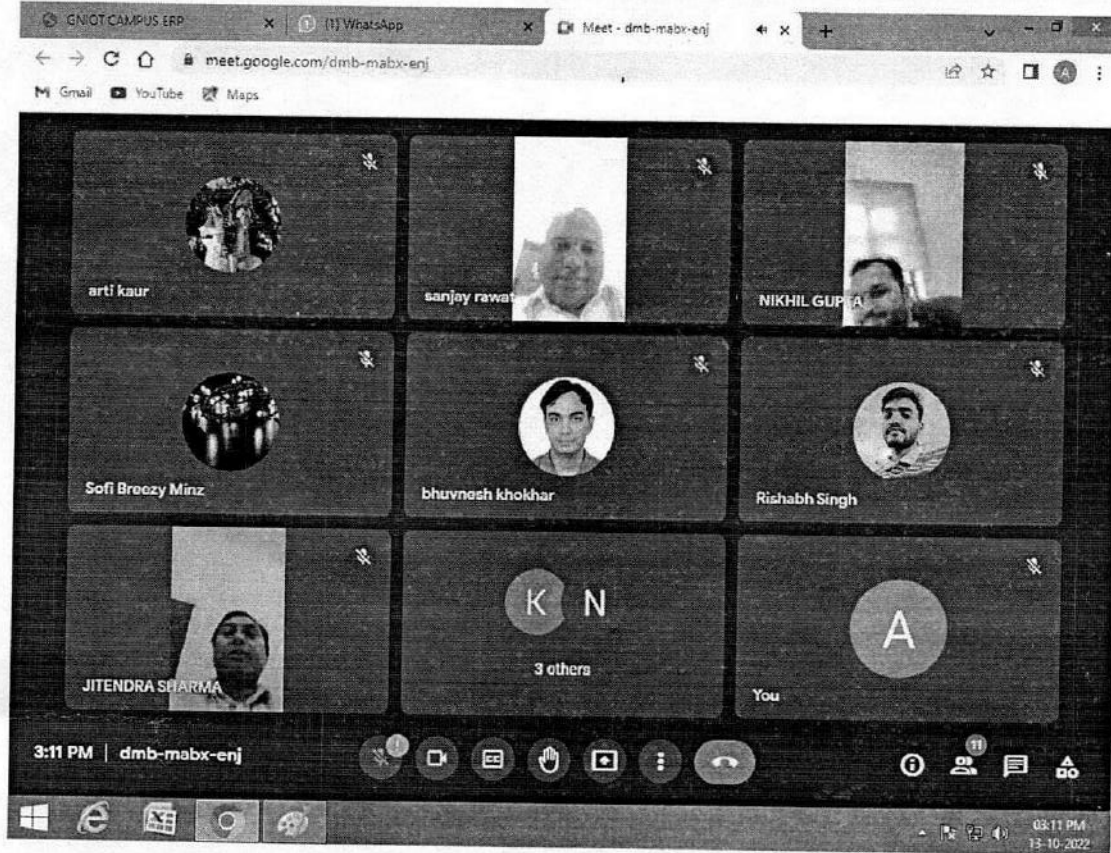

Date: 08.10.2020

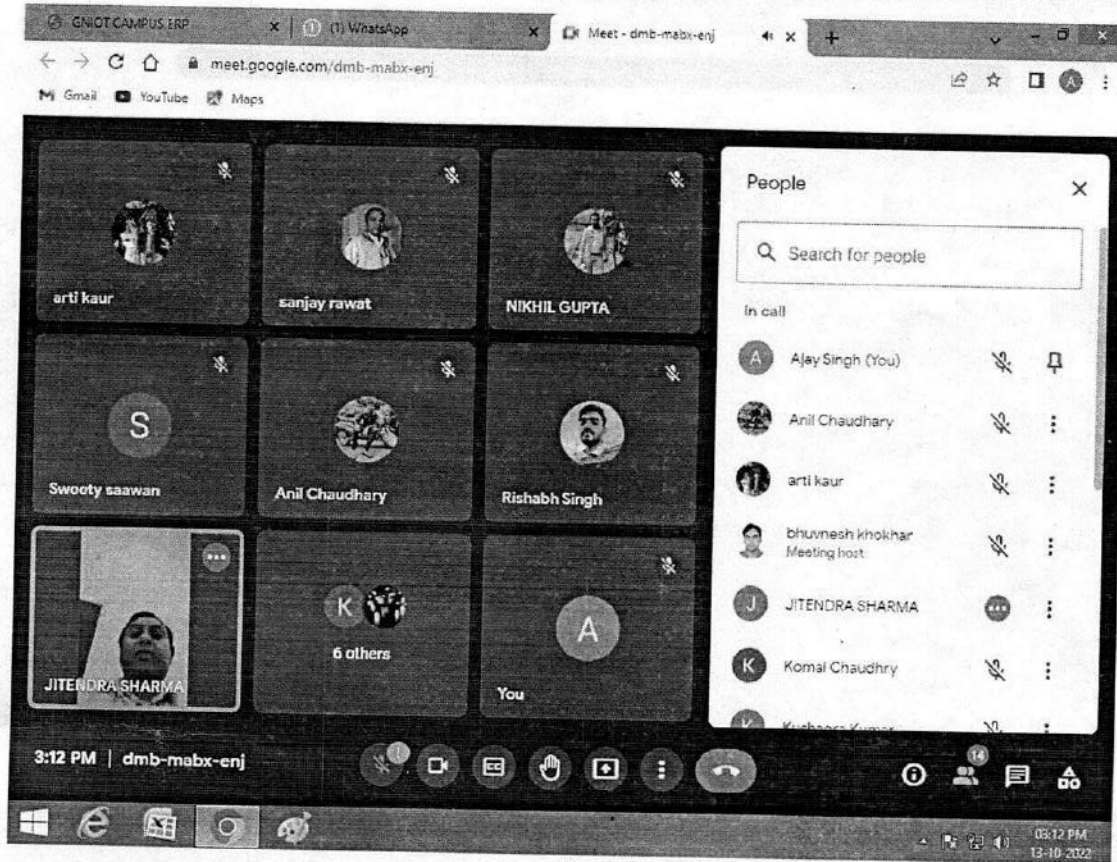

World Sight Day is an International Day of Awareness, held annually on the second Thursday of October. This day is a reminder to you, to love your eyes. Eye health impacts education, employment, quality of life, poverty and so many other Sustainable Development Goals. The Electrical Engineering Department on 08.10.2020 conducted a webinar on the occasion of the World Sight Day. Dr. Neeraj Kumar, an ophthalmologist shared his valuable knowledge regarding how to take care of our eyes. Students of 3rd year and all the faculty members were a part of the webinar. Moderator of the event was Mr. BhuvneshKhokhar, Asst. Prof., EE dept.

Outcome:

The students were able to know about various eye ailments and how to protect their eyes in day to day life. They also learnt about the importance of the world sight day.

Books Distribution Camp

Date: 15.10.2020

Happiness doesn't result from what we get but from what we give

The Electrical Engineering (EE) Department organized a Book Distribution Event at a primary school in Greater Noida on 15.10.2020 and it gives me immense pleasure to share with you all about the ceaseless happiness that I experienced. Mr. Aneep Kumar and Mr. Ajay Singh escorted the students of EE department to the primary school and distributed books and other stationery items to the kindergarten students.

Outcome:

The students participated in books and stationary distribution camp which gives them immense pleasure and a sense of donating things to needy persons.

ACTIVITY REPORT

Waste Management

21st October 2020

Organized by

Mechanical Engineering Department

Date: 21st October 2020

Location: GNIOT and nearby locations

Organizers: Mechanical Engineering Department

Objective: To promote proper waste management practices and cleanliness in GNIOT.

Activities:

- Cleaning of the GNIOT campus.
- Segregation of waste into recyclable and non-recyclable materials..
- Awareness campaign on the importance of waste management and cleanliness.

Participants:

- Students, faculty & staff members of the Mechanical Engineering Department.

Outcomes:

- A total of 35 volunteers participated in the activity.
- Approximately 45 kgs of waste was collected and disposed of properly.
- The GNIOT campus was left clean and hygienic.
- The initiative helped to create awareness among the local community about the importance of proper waste management and cleanliness.

Conclusion: The Waste Management activity organized by the Mechanical Engineering Department, GNIOT Gr. Noida was a great success. It not only helped to promote proper waste management and cleanliness but also created awareness among the local community about the importance of keeping our surroundings clean. We hope that such initiatives will continue in the future, and more people will join us in our efforts to promote a clean and hygienic environment. This event was successfully organized under the guidance of our Director Prof. (Dr.) Rajesh Goel, Dean (A) Prof. (Dr.) Dhiraj Gupta HOD Mechanical Prof. (Dr.) M. S. Rawat, and other faculty members. The activity was coordinated by Mr. S. Q. Husain.

Implementation of Unnat Bharat Abhiyan

Unnat Bharat Abhiyan (UBA) is a flagship program of the Ministry of Education (formerly known as Ministry of Human Resource Development) launched in 2014 with the aim of connecting institutions of higher education, including engineering colleges and technical institutions, with villages to find solutions for rural development challenges through appropriate technologies.

Greater Noida Institute of Technology (Engineering Institute) is one of the participating institutions in the UBA program. The institute has adopted five villages under the UBA program, namely, Junpat, Khedi, Bhogpur, Rampur Bangar, Rampur Khader.

The institute has taken various initiatives for the development of these villages, including:

- 1) Conducting surveys and need assessments to identify the problems faced by the villagers and understand their requirements.
- 2) Providing technical support and expertise to address the identified problems and develop appropriate solutions.
- 3) Promoting skill development and entrepreneurship among the villagers through training programs and workshops.
- 4) Creating awareness among the villagers about the importance of health, hygiene, and sanitation through campaigns and awareness programs.
- 5) Providing support for the construction of toilets, rainwater harvesting structures, and other infrastructure facilities.
- 6) Undertaking research and development activities in collaboration with the villagers to find innovative solutions to the rural development challenges.

Some events conducted by Greater Noida Institute of Technology (Engineering Institute), Greater Noida are:

Covid-19 Awareness Camp in Village Khedi : Institution Innovation Council (IIC) GNIOT, Greater Noida organized an awareness Campaign in village Khedi , Greater Noida Under the Unnatt Bharat Abhiyan on 18 January 2021. Dr Anuranjan Misra, Dean (R&D) and village Pradhan Mrs. Sangeeta Tounger given various carona awareness tips. They said masks and social distance is necessary until total removal of corona.

“Two meter distance, mask hai jaruri”

Sanitizer has distributed in the villages by GNIOT faculty members. Civil Engineering department of GNIOT had listen various problems of villager related to village along with the team of GNIOT-Institution Innovation Council so that a innovative solution can be suggested and implemented in the Khedi Village.

Village Pradhan Mrs. Sangeeta Tounger and villegers given many thanks to chairman and vice chairman of Greater Noida Institute of Technology for the distribution of marks and Sanitizer to all villagers. Mr. jainander Singh Bhati, Dr Priyanka Gautam, Tabish quadric, and shivendra yadav were also present as gniot team member.

Covid-19 Awareness Camp in Village Bhogpur: Institute Innovation Council (IIC) Greater Noida Institute of Technology Greater Noida organized an Awareness Campaign in Village Bhogpur Greater Noida under the Unnat Bharat Abhiyan on 21Jan/2021.

Director of GNIOT, shared government Initiative for vaccination of COVID 19 with villagers. Dr. Anuranjan Misra Dean research and development and Village Pradhan shared various tips to prevent Corona virus . villager people shared basic problem related with Electricity, Drinking water, Education with Dean Academic of GNIOT .

The team of Institute Innovation council (IIC) Distributed sanitizer and masks to all villagers . The village Pradhan Mrs. Son Devi and villagers said many thanks to chairman and Vice Chairman of GNIOT for Distribution of Masks and Sanitizer to all villagers.

Covid-19 Awareness Camp in Village Rampur Bangar: Institute Innovation Council (IIC) Greater Noida Institute of Technology Greater Noida organized an Awareness Campaign in Village Rampur Bangar Greater Noida under the Unnat Bharat Abhiyan on 22 Jan/2021.

Director of GIPS Dr. Deelip Singh, shared the government Initiative for vaccination of COVID 19 with villagers. Dr. Anuranjan Misra Dean research & development and development, GNIOT and Village Senior person Shree Paal Singh shared various tips to prevent Corona virus. Villager shared their Basic problems related with naked high voltage electricity wire, land required for marriage hall, requirement of Primary Health Centre with Dr. Anuranjan Misra Dean research & development, GNIOT.

The team of Institute Innovation council (IIC) Distributed sanitizer and masks to all villagers. The village senior person Mr. Kalicharan ji and villagers said many thanks to chairman and Vice Chairman of GNIOT for Distribution of Masks and Sanitizer to all villagers.

Covid-19 Awareness Camp in Village Rampur Khadar: The Institute Innovation Council (IIC) Greater Noida Institute of Technology Greater Noida conducted an awareness campaign on 25 January 2021 at Village Rampur Khadar Greater Noida under Unnao Bharat Abhiyan. Dr. Priyanka Gautam shared the government initiative with the villagers for the vaccination of COVID 19.

Dr. Anuranjan Mishra Dean Research and Development and Village Senior Person Mr. Bhagirath Ji shared various tips to prevent corona virus. The villagers shared problem of clean drinking water, new construction of toilets, transportation problem and basic problems related to the maintenance of the Primary Health Center with Dr. Anuranjan Misra, Dean Research & Development, GNIOT, Greater Noida.

The team of Institute Innovation Council (IIC) distributed sanitizers and masks to all villagers. Senior person of the village Mr. Rajbirji and villagers thanked the Chairman and Vice Chairman of GNIOT for the distribution of masks and sanitizers to all the villagers.

Covid-19 Awareness Camp in Village Junpat: The Institute Innovation Council (IIC) Greater Noida Institute of Technology, Greater Noida conducted an awareness campaign on 27 January 2021 at Village Junpat Greater Noida under Unnat Bharat Abhiyan. Dr. Priyanka Gautam of GNIOT and village pradhan shri Harender Ji shared the government initiative with the villagers for the vaccination of COVID 19.

Dr. Anuranjan Misra Dean Research and Development, and Surpanch shri Rameshwar Ji shared various tips to prevent from corona virus. The villagers started requirement of new construction of toilets, problem of clean drinking water, transportation problem and their basic problems related to the

maintenance of the Primary Health Center with Dr. Anuranjan Misra, Dean(R&D) GNIOT, Greater

Noida.

The team of Institute Innovation Council (IIC) distributed sanitizers and masks to all villagers. Mr. Rajbirji, the senior person of the village and the villagers thanked the Chairman and Vice chairman of GNIOT for the distribution of masks and sanitizers to all the villagers.

GNIOT Survey Camp in Different Villages: GNIOT had organized Survey Camp in Different Villages 28.08.2021 to 11.10.2021.

Women Awareness Camp: Under the banner of UBA the Department of Civil Engineering organized a Women Awareness Camp at Junpat Village, Greater Noida to empower the women of the village by advising them to maintain health standards for their well-being. The faculty of the department also distributed health and sanitation items to the women of the village.

Village Based Problem Discussion and Solution development Program: MCA department of GNIOT organized a village visit to Rampur Bangar village on 06.04.2022 under the vibrant leadership of Prof. (Dr.) Dhiraj Gupta, Director, GNIOT to discuss and find solutions to the problems faced by the villagers. This visit is an extension of activities designed to enlighten the students, the future stakeholders of our country regarding the issues faced by commoners, under the initiative of 'Unnat Bharat Abhiyan, GNIOT is constantly in touch with this adopted village to alleviate the problems there. The interactions will surely broaden the horizons of these students and make them aware of the social responsibilities they have.
